CALIFORNIA DEPARTMENT OF CONSUMER AFFAIRS

ANNUAL REPORT STATISTICAL APPENDIX 2005–06

The Department of Consumer Affairs (DCA) is one of the primary consumer protection resources for Californians. We provide information to help consumers understand how they can protect themselves from scams and fraud, and what steps they can take if they find themselves victims of such crimes. DCA also protects professionals from unfair and unethical business practices.

DCA's regulatory boards and bureaus license, register, certify, permit, or approve individuals or businesses according to qualifications established by legislation and regulations. Some programs authorize other organizations to provide services associated with the entity's purpose such as education of licensees or direct services to consumers. DCA's regulatory entities also investigate complaints and discipline those who violate practice requirements.

The Annual Report helps to monitor DCA's accomplishments by providing numerical summaries for each regulatory entity's licensing, examination, and enforcement processes. This enables individual regulatory programs and DCA to track year-to-year changes within the programs as well as differences between programs. The resulting data inform program and administrative decisions.

The Annual Report provides a descriptive overview of all licensing and enforcement action statistics as well as data showing costs and recovery to consumers and boards stemming from various investigations.

INTERPRETING STATISTICAL INFORMATION:

- Reporting practices among boards and bureaus are not exactly the same because of different legislative mandates for each regulatory program. Because of this difference, not all categories of data apply to all programs. When a particular survey question does not apply to a given program, there is no data to report, so the response is designated as "n/a" for "not applicable."
- Other data may not be reported because a program does not have the capability to track the information or because of electronic system deficiencies, so the response is designated as "NDA" for "no data available." In some instances, a program will have the total number for a given category without having specific numbers broken down into sub-categories.
- Because of the nature of the database, numbers for data under "Complaints" and "Investigations" may have been collected in different fiscal years. As a result, these types of categories often cannot be combined for summary data.
- The term "License Status" is used generically to encompass all of the license statuses used by DCA. These "License Status" categories encompass "Licenses and Registrations," "Certificates and Permits," and "Approvals."

- a) and b) As defined by the governing entity and classified by their data system.
- c) The total number of school approvals/accreditations that meet the criteria established by the Boards, Committees, and Commission that qualifies the school to train individuals who perform in the specific industry.
- d) The license type "Exemptee" reported in previous years was changed effective 1/1/06 to "Designated Representative" to be consistent with similar license types in other states. Data reported in previous years under "Exemptee" is now reported under "Designated Representative." Data increased significantly for the "Designated Representative" (previously "Exemptee") license type due to a change in the law that now requires non-resident wholesalers to have a board-licensed designated representative on-site.
- e) "Licensed Correctional Facility" data was omitted in error in FY 04/05 report.
- f) Data for "Non-Resident Pharmacy" was included in data reported for the "Pharmacy" license type in FY 04/05. "Non-Resident Pharmacy" is a separate license type and therefore, reported separately for FY 05/06.
- g) The license type "Out-of-State Distributor" reported in previous years was changed to "Non-Resident Wholesaler" to be consistent with similar license types in other states. Data reported in previous years under "Out-of-State Distributor" is now reported under "Non-Resident Wholesaler."
- h) "Pharmacist" (exam applications) is a new category of licensure for FY 05/06, although a part of the entire initial license process, to capture the Board's exam application workload that was not captured in previous years.

a) The Board does not have the authority to issue "Notices of Violation;" however, Board inspectors found that 966 sites inspected were not in complete compliance with California or Federal laws and regulations. These sites were either formally warned/educated or an investigation was opened to pursue formal action.

b) The Board does not currently have a means of tracking "Compliance Verified" data.

c) Total "Inspection Citations Issued" data are included in the "Citation and Fines" chart on page 88. The Board does not currently have a means to separate a citation that resulted from an inspection from other citations issued.

- a) Qualifying a call means to specify, with pre-determined code(s) assigned to each client, the subject area(s) based on the consumer inquiry. The telephone system allows the CIC phone agents a maximum of three codes for each consumer inquiry.
- b) General inquiry calls were generic consumer inquiries that could have pertained to any State or non-jurisdictional entity the CIC phone agents did not code. These un-coded calls were distributed proportionately among the CIC Client Bureaus, Boards, Office, and Programs, based on the client's total qualified calls.
- c) Language Line calls receive their own code. These calls were distributed proportionately among the CIC Client Bureaus, Boards, Office, and Programs, based on the client's total qualified calls.
