MESSAGE FROM THE SECRETARY

As part of the California Business, Consumer Services and Housing Agency, the Department of Consumer Affairs (DCA) plays a critical role in ensuring consumers are informed, empowered, and protected.

During the 2024–25 fiscal year, DCA and its boards, bureaus, and programs advanced critical efforts to strengthen consumer protection. From enhancing enforcement and complaint resolution to modernizing licensing systems and expanding outreach and education initiatives, the Department’s ongoing work aims to safeguard the public while supporting a strong workforce.

DCA focused on improving access to services, reducing barriers to obtaining a license, system modernization, collaboration, and using data-driven approaches to better serve consumers and professionals. Additionally, DCA provided essential services for those recovering from natural disasters, launched innovative programs for underserved communities, and continued its commitment to serving military servicemembers and their families.

The accomplishments highlighted in this report reflect the dedication and professionalism of DCA and its boards and bureaus. Together, they protect California consumers.

The Business, Consumer Services and Housing Agency remains committed to supporting the Department of Consumer Affairs in its mission and to advancing policies that promote fairness, opportunity, and consumer confidence throughout California.

Tomiquia Moss

**TOMIQUIA MOSS, SECRETARY
BUSINESS, CONSUMER SERVICES AND HOUSING AGENCY**

MESSAGE FROM THE DIRECTOR

I am pleased to present the California Department of Consumer Affairs (DCA) Fiscal Year 2024–25 Annual Report.

This report reflects the hard work and innovation of the Department and its 36 boards and bureaus. Together, we carried out the mission of protecting California consumers by regulating and supporting more than 3.4 million licensees.

DCA responded with agility to the urgent needs of licensees and consumers, while innovating through new and forward-looking efforts that enhance and expand our services. From supporting Los Angeles wildfire recovery, to expanding language access, to partnering with a state hospital, DCA took action to help and serve all Californians.

• Wildfire Recovery

During the wildfires in the Los Angeles region in early 2025, the Department deferred renewal fees in alignment with the Governor’s Executive Order, launched communication campaigns, and centralized disaster recovery resources online to better reach those in need. The Contractors State License Board (CSLB) served thousands of wildfire survivors by staffing disaster recovery centers and conducting enforcement against unlicensed activity.

• Strengthening Data Reporting

The Department overhauled its data reporting practices to ensure uniform reporting of information across all boards and bureaus.

This effort included clarifying definitions and creating reports for each system, departmentwide. The new practices will lead to more consistent, rapid and accurate collection of data for future reporting. DCA plans to follow this same process to update standard sunset review metrics and performance measures in the coming years.

• Diversity, Equity, Inclusion, and Accessibility

DCA integrates the principles of Diversity, Equity, Inclusion, and Accessibility (DEIA) into its mission and daily operations. The Department participated in inclusive recruitment and opened new opportunities for staff to get involved with DEIA efforts. DCA continued to expand language access and partnerships in order to reduce barriers and ensure meaningful access to programs and services for individuals with limited English proficiency.

• Servicemember Civil Relief Act Implementation

DCA’s continued commitment to serving military servicemembers and their families was reflected in August 2024 when it received a Best of California award in the Innovation Serving the Public category at the California Government Innovation Summit. This award was given for DCA’s implementation of the Servicemember Civil Relief Act (SCRA), which allows for servicemembers and their spouses to operate in California under licensure from another state when transferred to California under military orders. DCA was

Continued on page 6

MESSAGE FROM THE DIRECTOR (CONTINUED)

specifically recognized for its Federal Professional License Portability and State Registration Portal, which allows servicemembers and their spouses to apply online for registration in California under SCRA. DCA has been and remains committed to providing the highest quality service and support to our military community.

- **First-of-Its-Kind School at Napa State Hospital**

In August 2024, the Board of Barbering and Cosmetology approved the first barbering and cosmetology school in a state hospital, in collaboration with the California Department of State Hospitals (DSH), which provides mental health services to patients admitted into DSH facilities. The new school at Napa State Hospital will allow students to apply training gained at the hospital towards licensure requirements.

This first-of-its-kind program gives individuals within the state hospital system a tremendous opportunity to grow and build a sustainable future.

I am honored to lead a department that has such a positive and far-reaching impact as it serves all Californians. DCA not only protects consumers but breaks down barriers to access and provides new pathways to success.

KIMBERLY KIRCHMEYER, DIRECTOR
DEPARTMENT OF CONSUMER AFFAIRS

OUR MISSION

Provide outstanding support services, oversight, and innovative solutions to boards and bureaus that regulate California professionals and vocations so that through this partnership all Californians are informed, empowered, and protected.

OUR VISION

Together, protecting California consumers.

OUR VALUES

- | | | |
|---------------------|------------|--------------|
| Accountability | Diversity | Leadership |
| Communication | Equity | Teamwork |
| Consumer Protection | Inclusion | Transparency |
| | Innovation | Trust |
| | Integrity | |

DIVERSITY, EQUITY, INCLUSION, AND ACCESSIBILITY

The DEIA Executive Steering Committee fosters inclusion, supports DCA boards and bureaus, and advances employee and public needs by providing guidance, resources, and consultation to achieve DEIA goals.

DIVERSITY, EQUITY, INCLUSION, AND ACCESSIBILITY (DEIA) EXECUTIVE STEERING COMMITTEE

Driven by the Department’s mission to foster a diverse, equitable, and inclusive California Department of Consumer Affairs for all, the director established a DEIA Steering Committee in 2022. As of June 30, 2025, the Committee, which serves as the Department’s primary deliberative body for DEIA initiatives, is comprised of eight leaders from various boards, bureaus, and divisions. These leaders are responsible for advancing efforts that build a diverse workforce and cultivate an equitable, inclusive workplace for everyone.

DISABILITY ADVISORY COMMITTEE (DAC)

The Department’s Disability Advisory Committee was established in 1999. As of June 30, 2025, it is comprised of 10 employees from various boards, bureaus and divisions who have an interest in increasing hiring and

retention opportunities for people with disabilities. The Committee promotes its mission of inclusion by developing and sponsoring employee awareness communications, programs, and events.

TRIBAL CONSULTATION

To facilitate effective communication between the Department and tribal governments and communities, the director designates a tribal liaison to serve as the Department’s representative. This allows for meaningful input into the development of regulations, rules, policies, programs, projects, plans, and activities that may affect or involve tribal communities.

In October 2024, the Governor’s Office of Tribal Affairs partnered with CalHR to develop a training focused on Tribal Consultation. This training on government-to-government consultations was required by [law](#) for department directors and chief counsels, in addition to other executive leaders in California state government, by January 1, 2025 (and annually thereafter). Nearly 60 individuals, including every member of DCA’s Senior Staff

and all Executive Officers and Bureau Chiefs, completed the Tribal Consultation Training. DCA continues to encourage new Executive Officers, Bureau Chiefs, and Deputy Directors to complete the annual training.

More information is available via the DCA Tribal Consultation webpage: www.dca.ca.gov/consumers/tribal_consultation.shtml.

HIGHLIGHTS AND ACCOMPLISHMENTS

Through its committees, programs, boards, bureaus, and a range of ongoing and new initiatives, DCA continues to lead with its commitment to DEIA. This commitment comes to life through actions such as:

Enhanced Training Opportunities

DCA prioritized DEIA training, with courses developed by SOLID's DEIA-certified trainers and external experts, resulting in over 2,000 course completions by staff and board and bureau members.

Participated in Inclusive Recruitment

DCA, in partnership with various organizations, participated in 52 outreach events, 19 of which were DEIA-related recruitment fairs and events.

Developed a DEIA Webpage

DCA created a centralized DEIA webpage designed to keep staff informed and involved. The site provides educational resources and observances, showcases department accomplishments, and invites staff to submit suggestions to the DEIA Steering Committee. It also includes opportunities to apply to join the Committee.

Embedded Equity Through Strategic Planning

DCA and 19 of its boards and bureaus integrated equity into their strategic plans. To enhance transparency and public access, DCA also launched a centralized Strategic Plans webpage: www.dca.ca.gov/about_us/strategic_plans.shtml.

Expanded Language Access and Partnerships

DCA focused on expanding consumer resources, translating materials into additional languages, and building partnerships with trusted messengers. DCA translated a new consumer publication into various languages to increase community access to DCA resources. DCA also implemented an expectation of translating all press releases into Spanish.

DCA has finalized its Language Access Plan, which is now published on the Department's website: <http://www.dca.ca.gov/accessibility.shtml>. The plan reinforces DCA's ongoing commitment to reducing language barriers and ensuring meaningful access to its programs and services for individuals with limited English proficiency.

DCA will continue to work with internal partners and external stakeholders to monitor implementation of the plan, evaluate its effectiveness, and identify opportunities for ongoing improvement. This effort reflects DCA's dedication to equity, inclusion, and meaningful engagement with the diverse communities it serves.

Board and Bureau Activities

- The Medical Board of California administers the Mexico Pilot Program, which allows up to 30 physicians licensed in Mexico who specialize in family practice, internal medicine, pediatrics, and obstetrics and gynecology to practice in California for up to three years. In 2025, three physicians were licensed under the Mexico Pilot Program, reaching the 30-physician threshold.
- The Contractors State License Board (CSLB) offers a free monthly "Get Licensed to Build" webinar in Spanish, facilitated by bilingual staff. CSLB has also translated 10 key exams into Spanish and allows approved translators for other trade exams and languages.
- The Board of Behavioral Sciences (BBS) launched a Workforce Development Committee to reduce licensure barriers and an Outreach and Education Committee to inform the public about licensed professionals and career paths in therapy, promoting greater equity and opportunity in the field.
- The California Board of Accountancy (CBA) updated its Communications and Outreach Plan to reach a more diverse audience. This included issuing multilingual materials, adding a website translation tool, and highlighting diverse voices in its newsletter to promote equity and inclusion.
- The California State Board of Optometry (CSBO) collaborated with Latinos en Optometry, an organization dedicated to increasing Latino and Hispanic representation in the field of optometry. As part of this partnership, CSBO featured a guest article from the Executive Director of Latinos en Optometry.

Tribal Relations and Licensure

The California State Athletic Commission (CSAC) actively engages with Tribal Nations across California. CSAC has entered into 13 tribal agreements with Tribal Nations thus far.

Legislation was passed in 2024 authorizing the Contractors State License Board (CSLB) (SB 1455), the Bureau of Automotive Repair (BAR) (SB 1451), and the Bureau of Security and Investigative Services (BSIS) (SB 1454) to issue licenses to federally recognized tribes and exempt them from certain requirements, such as registration with the California Secretary of State's Office.

In May 2025, CSLB issued its first contractor license to a tribal business. Under the new law, tribes and tribal businesses can perform construction work beyond reservation or federal boundaries. This milestone advances DEIA by empowering tribal businesses, supporting economic growth, and promoting a more inclusive construction industry.

BAR has also received and issued its first license to a tribal entity, and DCA continues to collaborate closely with its boards and bureaus to address issues raised by tribes across California.

SUPPORT SERVICES

The boards, bureaus, and other entities that comprise DCA are supported by a dedicated and highly skilled staff of legal, technical, and administrative professionals. This team provides a wide range of support services, including human resources, information technology, investigations, communications, professional examinations, training, strategic planning, fiscal operations, and more through various offices and divisions.

THE OFFICE OF ADMINISTRATIVE SERVICES provides business, personnel, budget, and accounting services. It consists of Business Services, Human Resources, and Fiscal Operations. Business Services ensures that DCA entities promote sound business decisions and practices in contracting and purchasing goods and services. It also manages DCA's facilities, vehicle fleet, emergency response, mailroom, and records services. Human Resources provides personnel support for DCA employees. Fiscal Operations provides budget, accounting, and central cashiering services.

THE COMMUNICATIONS DIVISION consists of the Office of Public Affairs (OPA), the Office of Publications, Design and Editing (PDE), Digital Print Services (DPS), and the Consumer Information Center (CIC). OPA creates and executes communications plans, develops strategic messaging, assists with content creation, provides information to consumers and licensees, responds to media inquiries, and distributes information to the media. OPA's videographers livestream public meetings and create visual content including public service

announcements and informational videos. PDE designs, edits, and produces consumer and licensee publications, reports, external and internal newsletters, graphics, and many other visual assets. PDE also produces and publishes DCA internal and external content including the Department's monthly online newsletter for employees. DPS provides full in-house print shop services, including black-and-white and color digital printing, copying, bindery, and other services to all of DCA. In addition to printing materials created by PDE, DPS produces projects directly from DCA licensing entities and support-system programs, including licensee notices, reports, training books, business cards, posters, postcards, and booklets. CIC serves as DCA's information resource center for consumer, applicant, and licensee inquiries. Through its call center and correspondence unit, CIC provides helpful information and/or directs individuals to appropriate agencies. CIC also handles escalated complaints received from the Business, Consumer Services and Housing Agency and the Governor's Office in coordination with boards, bureaus, and other government offices.

THE INTERNAL AUDIT OFFICE (IAO) examines and evaluates the adequacy and effectiveness of DCA governance, risk management, and internal control processes that are in place to achieve the mission, goals, and objectives of the Department. This includes assessing financial risks and performing audits on DCA's internal operations to ensure effective and efficient operations; compliance with state and federal rules, laws, and regulations; and the reliability of DCA's financial reports. Services include acting as the liaison for all audits and reviews conducted by federal and state agencies, coordinating all audit entrance and exit conferences, keeping impacted DCA management staff apprised of audit issues, coordinating all DCA responses to audit findings, and tracking the status of all recommendations until the reported findings have been resolved. The IAO also provides guidance to DCA and boards on the State Leadership Accountability Act, which identifies and addresses risks.

THE EQUAL EMPLOYMENT OPPORTUNITY OFFICE (EEO) serves all DCA entities by enforcing civil rights laws that prohibit discrimination and ensure employees can work and advance based on merit, ability, and potential, without regard to protected characteristics. The EEO Office is responsible for promoting the employment of people with disabilities and preventing and addressing discrimination through policy implementation, training, education, and outreach. It investigates complaints of discrimination and coordinates programs such as the DCA Bilingual Services Program, the Disability Advisory Committee, the Employee Mediation Program, Language Access Plan, and the Upward Mobility Program. Additionally, the office provides sexual harassment prevention training, serves as DCA's Americans with Disabilities Act (ADA) coordinator, facilitates sign language and real-time captioning requests, and conducts the annual Workforce Analysis. Through these efforts, the EEO Office ensures a fair, inclusive, and accessible workplace for all DCA employees.

THE OFFICE OF INFORMATION SERVICES (OIS) directs and manages information technology (IT) for DCA and its boards and bureaus. It consists of Application Services, Enterprise Technology Services, Infrastructure Services, Client IT Support Services, Enterprise Project Services, and the Office of Information Security. OIS supports DCA's large portfolio including varied licensing and enforcement systems utilized by DCA boards and bureaus. OIS also maintains and supports DCA's physical infrastructure, serving more than 30 offices statewide, as well as more than 50 internet and intranet sites. It also supports cloud and other emerging technologies to gain efficiencies and implement continuous improvement for the Department.

Enterprise Project Services provides project management assistance, controls agency liaison services, oversees the OIS change management and release process, and is implementing IT governance. The Office of Information Security establishes the IT security and data privacy policies, maintains the business continuity planning process, investigates IT security breaches, and acts as liaison to the California Department of Technology in matters related to the Department's IT security.

THE ORGANIZATIONAL IMPROVEMENT OFFICE (OIO) collaborates with DCA entities to identify opportunities for program improvement through business analysis, maximizing the utilization of existing resources, and improving productivity and quality of services. It provides the following services—business process documentation and mapping, value stream analysis (process redesign), development of system requirements for IT projects, support for special projects, and organizational change management. OIO supports the journey of a unit through the transition phases of change, helping staff adopt a positive mindset with the help of change management strategies.

THE DIVISION OF INVESTIGATION (DOI) is the law enforcement and investigative branch of DCA. DOI staff perform objective investigations regarding allegations of misconduct by licensees of DCA entities. DOI helps to protect the health, safety, and welfare of California consumers by conducting investigations and referring cases for administrative and/or criminal charges against subject licensees or unlicensed individuals on behalf of DCA entities. DOI field investigations frequently involve allegations of the illegal use and theft of drugs, sexual misconduct, quality-of-care issues, impairment, and unlicensed activity. DOI is composed of three units. The Health Quality Investigation Unit provides investigative services to the Medical Board of California, the Physician Assistant Board, the Podiatric Medical Board of California, and the Osteopathic Medical Board of California. The Investigation and Enforcement Unit provides investigative services for all the other boards and bureaus within DCA. The Special Operations Unit (SOU) is a specialized law enforcement unit within DOI that provides investigative services, training, and program management services for DOI and DCA. SOU conducts internal affairs investigations on behalf of DCA; background investigations as part of the hiring process of board, bureau, DOI, and DCA staff; investigations pursuant to DCA's Workplace Violence Prevention Policy; and provides oversight of the Infraction Citation Authority Program and the Criminal Offender Record Information clearance system.

THE LEGAL AFFAIRS DIVISION serves as in-house counsel for the director, executive staff, boards, bureaus, and other entities within DCA. The team of attorneys provides legal analysis and opinions on laws, issues, proposed legislation, regulations, government contracts, employer-employee matters, the Open Meeting Act, the Public Records Act, and the Information Practices Act. This division also represents DCA before the State Personnel Board and other administrative tribunals, provides small claims advice, defends clients in depositions, and appears at hundreds of public meetings annually.

THE DIVISION OF LEGISLATIVE AFFAIRS serves as DCAs resource on legislative matters, representing DCAs positions before the Legislature. This division monitors and analyzes legislative bills on consumer issues and provides legislative recommendations and technical assistance to DCA, the Business, Consumer Services and Housing Agency, and the Governor’s Office. The division also serves as the liaison for the Legislature in handling constituent issues affecting all DCA entities. The division hosts legislative roundtables to provide an open forum to discuss all aspects of legislation, including fiscal, information technology, and implementation impacts among DCAs various boards and bureaus.

THE OFFICE OF PROFESSIONAL EXAMINATION SERVICES (OPES) provides psychometric consulting services for occupational licensure examination programs. OPES services include occupational analysis, examination development (item writing and review), standard setting, program evaluation, and statistical analysis of examination performance. OPES follows accepted professional guidelines and technical standards to ensure that licensing examinations are fair, valid, and legally defensible. In addition to servicing 40 to 50 intra-agency contracts with DCA entities, OPES also oversees the master contract for examination administration at computer-based testing centers throughout the United States.

SOLID TRAINING AND PLANNING SOLUTIONS (SOLID) supports the development of all DCA employees through the design, delivery, evaluation, and administration of centralized training and education programs to ensure a skilled workforce that can meet DCA’s strategic objectives. In addition, SOLID provides strategic planning, meeting facilitation, virtual meeting moderation, survey development, and employee satisfaction and engagement assessment services, helping DCA programs manage their organizations proactively and use resources effectively to achieve their goals.

BOARD AND BUREAU RELATIONS (BBR) is the liaison between the DCA Executive Office and its boards, bureaus, and other entities. BBR provides support services for appointed board members, executive officers, and bureau chiefs by connecting them with appropriate DCA resources. BBR is responsible for coordinating DCA executive officer and board member onboarding, procedures, and trainings, including DCA’s Board Member Orientation Training. BBR provides tracking and analysis of all board meeting content and acts as the rapid response team for troubleshooting urgent issues across all DCA entities. Additionally, it collaborates with entities on external stakeholder engagement; maintains departmental data on legislative implementation, board and committee members’ required training compliance, and appointments; as well as assists members throughout the Senate confirmation process. BBR serves as a liaison between DCA entities, the Governor’s Office, legislative appointing authorities, and the Business, Consumer Services and Housing Agency.

DEPARTMENTWIDE LEGISLATION

SB 160 (COMMITTEE ON BUDGET AND FISCAL REVIEW, CHAPTER 113, STATUTES OF 2025) BACKGROUND CHECKS.

Among other things, this bill amends provisions related to fingerprinting requirements for licensees of the Medical Board, the Osteopathic Medical Board, the Board of Psychology, the Board of Behavioral Sciences, the Bureau of Security and Investigative Services, and the Bureau of Household Goods and Services. This will allow the Department of Justice to continue providing information from the Federal Bureau of Investigation to the boards and bureaus.

SB 470 (LAIRD, CHAPTER 222, STATUTES OF 2025) BAGLEY-KEENE OPEN MEETING ACT: TELECONFERENCING.

This bill extends, until January 1, 2030, the sunset date for certain provisions relating to teleconferencing under the Bagley-Keene Open Meeting Act. This allows boards and bureaus to continue to hold teleconferenced board and advisory committee meetings, provided that specified physical location requirements are met. These provisions,

which took effect in 2024 following the passage of SB 544 (Laird, Chapter 216, Statutes of 2023), were set to sunset on January 1, 2026.

SB 744 (CABALDON, CHAPTER 425, STATUTES OF 2025) ACCREDITING AGENCIES.

This bill states that, for the purposes of California law, a national or regional accrediting agency recognized by the United States Department of Education as of January 2025, will retain that recognition until July 1, 2029, provided that the accrediting agency continues to operate in substantially the same manner.

SB 861 (COMMITTEE ON BUSINESS, PROFESSIONS AND ECONOMIC DEVELOPMENT, CHAPTER 592, STATUTES OF 2025) CONSUMER AFFAIRS.

This is the omnibus bill for the Senate Business, Professions, and Economic Development Committee. This bill makes technical and clarifying changes to the practice acts of various boards and bureaus within the Department. Changes include: grammatical fixes and removing outdated language for several boards, clarifying workers compensation insurance requirements for contractors, providing extra clarifications related to required documents from private postsecondary

institutions, ensuring that the Bureau of Automotive Repair maintains clear enforcement authority, adding the Board of Chiropractic Examiners to the list of the Department's programs with explicit statutory authority to obtain criminal history information, amending the accuracy requirement for the qualifier examination for court reporters, and conforming changes related to the composition of the Dental Board.

HEALING ARTS*

AB 144 (COMMITTEE ON BUDGET, CHAPTER 105, STATUTES OF 2025) HEALTH.

Among other things, this bill exempts certain health care practitioners licensed in another state, territory, or country from specified licensure requirements while providing professional services at the 2028 Olympic and Paralympic Games. This bill also allows specified healing arts practitioners to prescribe and administer COVID-19 vaccinations consistent with recommendations adopted by the California Department of Public Health, as opposed to following federal guidelines.

AB 260 (AGUIAR-CURRY, CHAPTER 136, STATUTES OF 2025) SEXUAL AND REPRODUCTIVE HEALTH CARE.

This urgency bill prohibits healing arts practitioners from being subject to civil, criminal, or disciplinary action solely on the basis that the practitioner prescribed a drug used for medication abortion. It allows pharmacists to dispense medication abortion drugs without the name of the patient, prescriber, or the name and address of the pharmacy on the prescription label. This bill also contains provisions that affect the Department of Public Health and the Department of Health Care Services that protect the use of medication abortion.

AB 447 (GONZÁLEZ, CHAPTER 363, STATUTES OF 2025) EMERGENCY ROOM PATIENT PRESCRIPTIONS.

This bill allows a prescriber to dispense an unused quantity of a dangerous drug acquired by a hospital pharmacy to an emergency room patient when they are discharged, if the drug was administered from single patient use multi-dose packaging and can be self-administered by the patient. This bill also provides

that the drug must have been ordered and administered to the emergency room patient and must be necessary for the continued treatment of the patient but may not be a controlled substance. Additionally, this bill adds to the circumstances of when an exempt from licensure automated unit dose system used to provide medication to patients can be utilized.

AB 489 (BONTA, CHAPTER 615, STATUTES OF 2025) HEALTH CARE PROFESSIONS: DECEPTIVE TERMS OR LETTERS: ARTIFICIAL INTELLIGENCE.

This bill prohibits artificial intelligence systems from implying that they are licensed health care professionals. Healing arts boards within the Department may pursue an injunction, restraining order, or other remedy against a person or entity who develops or deploys such a system.

AB 1037 (ELHAWARY, CHAPTER 569, STATUTES OF 2025) PUBLIC HEALTH: SUBSTANCE USE DISORDER.

This bill eliminates specified requirements, such as mandatory training, for any person to legally possess and use opioid antagonists and shields individuals from civil or criminal penalties if they administer opioid antagonists in good faith. This bill also explicitly protects licensed health care providers who prescribe opioid antagonists from professional review and criminal prosecution. Additionally, this bill protects those providers from liability in civil actions related to any person who administers the opioid antagonist in good faith and not for compensation.

SB 351 (CABALDON, CHAPTER 409, STATUTES OF 2025) HEALTH FACILITIES.

This bill, among other provisions, prohibits a private equity group or hedge fund involved in any manner with a California physician or dental practice from interfering with the professional judgment of physicians or dentists in making health care decisions and exercising power over diagnostic tests, referrals, treatment options, and content of medical records. This bill authorizes the Attorney General to seek injunctive relief and other remedies a court deems appropriate to enforce the bill and entitles the Attorney General to recover attorney's fees and costs.

* Healing arts legislation refers to the Acupuncture Board, Board of Behavioral Sciences, Board of Chiropractic Examiners, Dental Board of California, Dental Hygiene Board of California, Medical Board of California, California Board of Naturopathic Medicine, California Board of Occupational Therapy, California State Board of Optometry, Osteopathic Medical Board of California, California State Board of Pharmacy, Physical Therapy Board of California, Physician Assistant Board, Podiatric Medical Board of California, Board of Psychology, Board of Registered Nursing, Respiratory Care Board of California, Speech-Language Pathology and Audiology and Hearing Aid Dispensers Board, California Veterinary Medical Board, and Board of Vocational Nursing and Psychiatric Technicians.

OVERVIEW OF REPORTED INFORMATION

In this *Annual Report*, each DCA entity notes its accomplishments, new laws or regulations, and statistical information extending through the 2024–25 fiscal year. Entities vary in the data they report because they are governed by different laws, and therefore, not all categories of data apply to all entities. If a category does not apply, the table will indicate “N/A.” Below is an overview of the data reported along with examples.

The Department has collaborated with subject matter experts from each board and bureau to update and refine the metrics presented in this report. This effort involved both department-wide meetings and one-on-one consultations to carefully review each metric and its definition and implement changes to statistical reports, ensuring accuracy and consistency across all reporting entities. As a result, some data may differ from what was reported in previous annual reports. Additionally, this initiative included the development of improved, standardized reports tailored to the unique aspects of each board and bureau. These new reports will support consistency in the annual metrics and data definitions across all boards and bureaus.

STAFF

The number of civil service and exempt positions approved in the state budget (including vacancies and temporary help). Exempt employees are executive-level personnel (usually an executive officer or a bureau chief) appointed by the board, the DCA director, or the governor.

LICENSES, REGISTRATIONS, CERTIFICATES, AND PERMITS

The total number of licenses, registrations, certificates, and permits. Totals for each type of license, registration, certificate, and permit can be found in the “Licensing Population by Type” table.

BOARD/BUREAU MEMBERSHIP

Boards and commissions are semiautonomous entities. Members of a board are usually split between people representing the profession or industry and people representing the public. Board members are appointed by the governor, the Senate Rules Committee, or the Speaker of the Assembly. The number of board members, who they represent, and who appoints them is set in state law. Membership on a DCA board is not a salaried position. Those who serve receive per diem and travel expenses to attend meetings.

Bureaus and programs are under the direct control of DCA, but may have an advisory committee made up of professionals and public members.

BOARD/BUREAU LEADERSHIP

Board and bureau leadership, including management title, name, and email address.

Example:

Licenses and regulates certified public accountants and public accountancy firms.

www.cba.ca.gov

Staff: 99.9 civil servant positions, 1 exempt

Licenses, Registrations, Certificates, and Permits: 67,877

Board Membership: 8 public representatives, 7 licensees

Board Leadership:

Dominic Franzella

Executive Officer

dominic.franzella@cba.ca.gov

Deanne Pearce

Assistant Executive Officer

deanne.pearce@cba.ca.gov

Laws and Regulations:

Business and Professions Code section 5000–5158

California Code of Regulations, title 16, section 1–99.2

Sunset Review:

Last review: 2024 | Next review: 2028

LAWS AND REGULATIONS

The laws and regulations governing the board, bureau, committee, program, or commission.

SUNSET REVIEW

All boards and bureaus undergo a sunset process before the Legislature. This section indicates the date of the last review and future scheduled appearance. Through the sunset hearing, the Legislature evaluates the need, effectiveness, and performance of the board, bureau, committee, program, or commission.

RECIPROCITY

Reciprocity is defined as granting a license to an individual who is licensed in the same profession in another state by requiring proof of licensure from that state (without requiring additional steps or licensure requirements such as examinations or documentation beyond licensure). Some DCA boards and bureaus allow reciprocity.

ACCOMPLISHMENTS

A written summary of accomplishments throughout the fiscal year focusing on consumer protection, licensing and enforcement updates, and communications and outreach.

NEW LEGISLATION

Newly enacted legislation that affects the board/bureau, consumers, licensees, and/or applicants.

FEES

List of fees for licensure and renewal. Additional fees may be required. Refer to individual laws and regulations for details.

TYPE	ACTUAL FEE	STATUTORY LIMIT
ACUPUNCTURIST LICENSE

SUMMARY OF ENFORCEMENT ACTIVITY

Complaints—Intake

Total number of complaints and conviction/arrest notifications (convictions, applicant-reported convictions, and subsequent arrests) received, closed without referral for investigation, referred for investigation, and pending intake at the close of the fiscal year. This is a comprehensive overview of the intake process and lifecycle of a complaint at the beginning of the process. These include complaints from the public, government, law enforcement, licensed professional groups, internal staff, others, or anonymous sources. DCA defines a complaint as “an allegation or inquiry from any source indicating a probable violation of any law, rule, or order of any regulatory agency, including violations of the Business and Professions Code relating to businesses and professions licensed by any entity of the Department of Consumer Affairs.

COMPLAINTS—INTAKE	
903	RECEIVED
233	CLOSED WITHOUT REFERRAL FOR INVESTIGATION
708	REFERRED FOR INVESTIGATION
12	PENDING

Investigations

Total number of investigations opened, closed, and pending at the end of the fiscal year. An investigation is defined as the collection and verification of facts to determine jurisdiction and potential violations of law. The total count of investigations includes desk, in-house and field investigations. Pending and closed cases may have been opened in a prior year.

INVESTIGATIONS	
708	OPENED
877	CLOSED
606	PENDING

Enforcement Aging—Completed Intake and Investigations

This section breaks down the total number of completed investigations by age. The timeline is from the date the complaint was received to the date the investigation was completed. Each number is representative of a case that

was closed in that time frame. Additionally, this section includes major milestones in the intake and investigations processes by age.

ENFORCEMENT AGING—COMPLETED INTAKE AND INVESTIGATIONS	
212	UP TO 90 DAYS
94	91 TO 180 DAYS
161	181 DAYS TO 1 YEAR
379	1 TO 2 YEARS
30	2 TO 3 YEARS
1	OVER 3 YEARS
12	AVERAGE NUMBER OF DAYS FROM RECEIPT OF COMPLAINT TO ASSIGNMENT OF INVESTIGATOR
311	AVERAGE NUMBER OF DAYS FOR ALL INVESTIGATION OUTCOMES (FROM START OF INVESTIGATION TO REFERRAL FOR ACTION OR CASE CLOSURE WITHOUT REFERRAL FOR ACTION)
322	AVERAGE NUMBER OF DAYS FROM RECEIPT OF COMPLAINT TO REFERRAL FOR ACTION/PROSECUTION OR CASE CLOSURE WITHOUT REFERRAL FOR ACTION/PROSECUTION

Inspections

This count includes routine, mandated, and complaint-driven inspections, the number of citations issued and the total number of disciplinary actions taken based upon an inspection being conducted.

INSPECTIONS	
323	CONDUCTED
38	CITATIONS ISSUED
1	DISCIPLINARY ACTION TAKEN

Citations and Fines

Total number of citations issued with and without an administrative fine and the total number of citations withdrawn, dismissed, reduced or modified. Additionally, this section includes the average number of days from when the complaint was received or inspection conducted to when the citation was issued and the number of administrative fines assessed as part of a disciplinary order or action.

CITATIONS AND FINES	
0	ISSUED WITHOUT A FINE
278	ISSUED WITH A FINE
91	WITHDRAWN/DISMISSED/REDUCED
90	AVERAGE NUMBER OF DAYS TO ISSUE A CITATION (FROM COMPLAINT RECEIPT/INSPECTION CONDUCTED TO CITATION ISSUED)
0	ADMINISTRATIVE FINES

Total Amount of Fines

Total amount of citations and administrative fines assessed, withdrawn, dismissed, reduced, and collected.

TOTAL AMOUNT OF FINES	
\$1,573,460.00	ASSESSED
\$448,800.00	WITHDRAWN/DISMISSED/REDUCED
\$589,492.13	COLLECTED

Criminal/Civil Actions

Total number of referrals for criminal or civil action and criminal and civil actions filed. These are referrals to or filings by a district attorney or the Attorney General’s Office for criminal or civil action. These may include misdemeanor citations. A referral may be made both to the district attorney and the Office of the Attorney General, in which case it will be reflected in both categories.

CRIMINAL/CIVIL ACTIONS	
0	REFERRALS FOR CRIMINAL/CIVIL ACTION
0	CRIMINAL ACTIONS FILED
0	CIVIL ACTIONS FILED

Office of the Attorney General/In-house/Disciplinary Actions

Complaints and investigations in which the evidence and facts have substantiated a violation of the law are referred to the attorney general for disciplinary action or may be handled in-house. Outcomes of disciplinary action may affect the status of a professional’s license or services provided. Total number of cases referred to the attorney general or in-house cases initiated. Includes cases closed with a subset of consolidated cases that are related to a case that resulted in discipline but only one outcome is counted. Cases pending - AG Pre-Filing represent cases referred without an action filed while AG Post-Filing have an action filed but no outcome.

OFFICE OF THE ATTORNEY GENERAL/IN-HOUSE/DISCIPLINARY ACTIONS	
33	CASES OPENED/INITIATED
19	CASES CLOSED
10	- CONSOLIDATED CASES CLOSED
14	CASES PENDING - AG PRE-FILING
13	CASES PENDING - AG POST-FILING

Enforcement Aging—Completed Attorney General Cases and In-house Cases

This section breaks down the total number of attorney general and in-house cases closed by age. The timeline begins from the referral to the AG or in-house initiation to the outcome of the case to closure, referral for citation, or disciplinary outcome. Each number is representative of a case that was closed in that time frame.

ENFORCEMENT AGING – COMPLETED ATTORNEY GENERAL AND IN-HOUSE CASES	
9	UP TO 1 YEAR
10	1 TO 2 YEARS
0	2 TO 3 YEARS
0	OVER 3 YEARS

Formal Actions Filed/Withdrawn/Dismissed

Total number of restraining/restriction/suspension orders sought and granted, accusations filed, petitions to revoke probation and accusations and petitions to revoke probation filed, and accusations/petitions withdrawn/dismissed.

1	ACCUSATIONS WITHDRAWN/DISMISSED
0	PETITIONS TO REVOKE PROBATION AND ACCUSATIONS AND PETITIONS TO REVOKE PROBATION WITHDRAWN/DISMISSED

Administrative Outcomes/Final Orders

Total number of disciplinary actions/outcomes by type. This section includes major milestones from closure of the investigation to imposing formal discipline and from receipt of the complaint to imposing formal discipline by age.

ADMINISTRATIVE OUTCOMES/FINAL ORDERS	
3	REVOCATION
0	SURRENDER OF LICENSE
0	PROBATION WITH SUSPENSION
0	SUSPENSION ONLY
0	PROBATION ONLY
0	PUBLIC REPRIMAND/PUBLIC REPROVAL/PUBLIC LETTER OF REPRIMAND
0	OTHER DECISIONS
3	TOTAL
329	AVERAGE NUMBER OF DAYS FROM CLOSURE OF INVESTIGATION TO IMPOSING FORMAL DISCIPLINE
609	AVERAGE NUMBER OF DAYS TO IMPOSE DISCIPLINE FROM RECEIPT OF COMPLAINT

Probation

Probation is an action taken in administrative discipline during which a licensee is monitored and must adhere to certain terms and conditions. Total number of probationers who completed probation, probationers pending at the end of the fiscal year, and the total number of cease practice orders issued for violating a condition of the probation order. Total number of probationers who completed probation and probationers pending at the end of the fiscal year.

PROBATION	
0	PROBATIONS COMPLETED
5	PROBATIONERS PENDING (CLOSE OF FY)
0	CEASE PRACTICE ORDERS ISSUED

Subsequent Discipline

Total number of subsequent disciplines ordered. Subsequent discipline includes: surrender of a license on probation with no formal action pending, new complaints against a license on probation resulting in disciplinary action, or a confirmed violation of a condition of probation that results in additional discipline.

SUBSEQUENT DISCIPLINE	
0	PROBATIONS REVOKED
0	PROBATIONER'S LICENSE SURRENDERED
0	ADDITIONAL PROBATION WITH SUSPENSION
1	ADDITIONAL PROBATION
0	OTHER CONDITIONS ADDED
0	OTHER PROBATION OUTCOME

Petition for Modification or Termination of Probation

Total number of petitions for modification or termination of probation granted and denied. This refers to the outcome of petitions filed by licensees to modify terms and conditions of probation or to terminate probation.

PETITION FOR MODIFICATION OR TERMINATION OF PROBATION	
0	GRANTED
0	DENIED

Petition for Reinstatement of Revoked or Surrendered License/Registration/Certificate

Total number of petitions for reinstatement of revoked or surrendered licenses, registrations, certificates granted and denied. This refers to the outcome of petitions by licensees requesting reinstatement of a revoked or surrendered license. Granted is broken down by the specific outcomes pertaining to granting the petition for reinstatement.

PETITION FOR REINSTATEMENT OF REVOKED/SURRENDERED LICENSE/REGISTRATION/CERTIFICATE	
7	GRANTED
4	- LICENSE ISSUED WITH NO RESTRICTIONS
3	- LICENSE ISSUED AND PLACED ON PROBATION
0	- LICENSE ISSUED AND PLACED ON PROBATION WITH PRECEDENT CONDITION
0	- OTHER DECISION
9	DENIED

Administrative/Criminal Cost Recovery

Administrative cost recovery ordered is to be paid by a licensee in a disciplinary decision for reimbursement of the board's or bureau's investigation and/or legal costs. Criminal cost recovery ordered is to be paid by a licensee or non-licensee based on the outcome of a criminal proceeding for services provided in the investigation of the criminal matter. Total dollar amount of administrative and criminal costs ordered and collected by boards and bureaus. Administrative cost recovery is separated by those ordered with surrender or revocation and are not reported if ordered to be due upon the reinstatement of the license. Other cost recovery will be recovered based on the terms of the discipline imposed. This does not include administrative fines assessed with discipline.

ADMINISTRATIVE/CRIMINAL COST RECOVERY	
\$56,348.56	ADMINISTRATIVE COST RECOVERY ORDERED
\$56,348.56	- ORDERED WITH REVOKED/SURRENDERED DECISION
\$0.00	- ORDERED WITH ALL OTHER DECISIONS
\$24,781.92	ADMINISTRATIVE COST RECOVERY COLLECTED
\$0.00	CRIMINAL COST RECOVERY ORDERED
\$0.00	CRIMINAL COST RECOVERY COLLECTED

Restitution to Consumers/Refunds/Savings

Total of court-ordered restitution to consumers as a result of mediation efforts. In some instances, services were performed without charge to the consumer, a consumer's bill was reduced, or a product was returned or exchanged.

RESTITUTION TO CONSUMERS/REFUNDS/SAVINGS	
\$0.00	RESTITUTION ORDERED
\$282,674.95	AMOUNT REFUNDED
\$0.00	REWORK AT NO CHARGE
\$0.00	ADJUSTMENTS/RETURNS/EXCHANGES
\$282,674.95	TOTAL SAVINGS ACHIEVED FOR CONSUMERS

Substance Abusing Licenses

Total number of probationers subject to drug testing during the fiscal year including the number of drug tests ordered and the number of positive drug tests.

SUBSTANCE ABUSING LICENSEES	
4	PROBATIONERS SUBJECT TO DRUG TESTING
12	DRUG TESTS ORDERED
0	POSITIVE DRUG TESTS

Applicant Action

Total number of license applications denied without request for an appeal, statements of issues filed, statement of issues granted resulting in license denial, licenses issued with probation or a probationary license issued, statement of issues denied resulting in the license being granted, licenses issued with a public letter of reprimand and statements of issues withdrawn.

APPLICANT ACTION	
9	LICENSE APPLICATION DENIED (NO APPEAL)
7	STATEMENTS OF ISSUES FILED
0	LICENSE DENIED (STATEMENT OF ISSUES GRANTED)
1	LICENSE ISSUED WITH PROBATION OR PROBATIONARY LICENSE ISSUED
0	LICENSE GRANTED (STATEMENT OF ISSUES DENIED)

Business and Professions Code section 5000–5158
California Code of Regulations, title 16, section 1–99.2

Sunset Review:

Last review: 2024 | Next review: 2028

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code sections 5096 and 5096.22, qualified out-of-state certified public accountants (CPAs) may participate in the Board’s mobility program and practice public accountancy in California without providing notice or paying a fee. All CPAs practicing in California under the mobility program are subject to certain restrictions in practice, the disciplinary authority of the Board, and, if applicable, must self-report certain disqualifying events and cease practicing in the state until authorized by the Board.

ACCOMPLISHMENTS

Reducing Barriers to Licensure

The California Board of Accountancy (CBA or Board) approved a legislative proposal in the fall of 2024 to enhance the requirements for CPA licensure and modernize mobility in California. The language was included in Assembly Bill (AB) 1175 (Irwin).

AB 1175 provides flexible options to licensure and focuses the educational requirements on the degree earned. Aspiring certified public accountants (CPAs) can obtain a bachelor’s degree with an accounting concentration and two years of general accounting experience, but they also have the option to meet a portion of the experience requirement by obtaining an advanced degree or completing a Board-approved certificate program. The changes address a potential barrier to entry in the profession and offer better access for all Californians.

For mobility, the proposal builds on the existing cross-border framework by eliminating unnecessary barriers and enabling businesses and individuals to access qualified out-of-state CPAs efficiently. The proposal expands consumer protection safeguards, most notably by enabling the Board to withhold the ability of a state's licensees to practice without notice in California, should it deem the state is not providing the proper consumer protection.

The legislation is the culmination of almost two years of collaborative discussions with licensees, educators, students, firms, and other stakeholders, including the California Society of CPAs, the National Association of State Boards of Accountancy, and the American Institute of CPAs.

Communicating information about the changes proposed in AB 1175 was a priority for Board staff this fiscal year. The Board launched a web page dedicated to AB 1175 that contains a comprehensive overview of the proposed changes. Multiple videos and podcasts related to AB 1175 were produced and posted online, with social media and the Board's newsletter, *UPDATE*, also providing information on the bill's progress through the legislative process.

The CBA Campus Tour outreach campaign kicked off in the fall of 2025 and will continue into 2026. This campaign focuses on communicating the licensure requirement changes proposed in AB 1175 in person and virtually to as many students and educators as possible across California to ensure aspiring CPAs are knowledgeable about their options for the pathway to CPA licensure.

Strategic Plan

The Board approved its 2025–29 Strategic Plan at the May 2025 CBA meeting. The Board partnered with DCA's SOLID Planning Solutions unit to gather feedback from Board stakeholders to develop its Strategic Plan, which guides the organization's direction in fulfilling its consumer protection mission. The plan outlines seven key goals in the areas of Enforcement, Licensing, Customer Service, Outreach, Laws and Regulations, Emerging Technologies, and Organizational Effectiveness. The goals will be put into action through 34 measurable objectives aimed at improving CBA's programs and operations.

Updates to Enforcement

The Enforcement Program continued to implement case management process improvements to effectively manage case inventory. For example, the Enforcement Program closed 88% of its investigations within the first six months and 98% within one year. This represents an improvement of 6% and 2%, respectively, compared

to Fiscal Year 2023–24. A large portion of these investigations were complaints about unlicensed activity and internal referrals for licensees failing to comply with California Code of Regulations (CCR) section 87(a)(2), which requires a licensee renewing a license in an active status to complete a minimum of 20 hours of continuing education (CE) in each year of the two year license renewal period, including a minimum of 12 CE hours in technical subject areas. The Enforcement Program continues to work to provide timely resolution to complaints and bring licensees into compliance with the Accountancy Act and CBA regulations.

Updates to Licensing

The Board maintained a processing timeframe of 30 days or less for all complete examination and licensing applications.

In July 2024, the Board successfully added the functionality for accounting firms to renew and pay their license renewal fees in the Board's online CBA Connect system. The CBA Connect system already included functionality for CPAs to renew their licenses online. In November 2024, the Board transitioned to using postcards to remind licensees to renew their licenses through CBA Connect, reducing printing and postage costs.

The implementation of the updated Uniform CPA Examination (CPA Exam) that launched on January 10, 2024, created a duplication of content in the Professional Ethics (PETH) Exam. Therefore, as of July 1, 2024, the CBA no longer requires applicants to complete the PETH Exam for issuance of a CPA license. As part of this change, the Board modified regulations requiring newly-licensed CPAs to complete a CBA-approved Regulatory Review Course for their first license renewal.

Communications and Outreach

The Board increased its outreach activities this fiscal year, attending four community-based resource and information fairs.

"Your CPA Roadmap" presentations were delivered on the campuses of California State University, San Marcos; University of California, Berkeley; California State University, San Bernardino; and University of California, San Diego Extended Studies. In addition to these in-person events, online presentations were held for California State University, Northridge and California State University, East Bay. The presentations included information about the requirements for the CPA Exam, licensure, and the application process; they also introduced attendees to changes that could be coming from AB 1175. Transcript reviews for students were provided as an additional

service at some of the in-person events. Each presentation featured a CBA or committee member speaking about their career as a CPA and the variety of opportunities that a CPA license provides.

In April 2025, staff began their ‘CBA Live’ initiative to increase availability to stakeholders by holding a monthly live Q&A session on the Webex platform, where stakeholders could have their questions answered directly by the CBA. Additionally, staff expanded the CBA’s online presence through a series of videos on a variety of topics including licensure, the CPA Exam application process, and information on the Board itself.

The Board continues to focus on growing audience diversity and serving the broad spectrum of California’s communities. An example of this is the Board’s newly revised Consumer Assistance Booklet, which was streamlined and given a more modern look. It is also being translated into Spanish, Simplified Chinese, Korean, and Vietnamese.

NEW LEGISLATION

AB 1175 (Irwin, Chapter 293, Statutes of 2025)

establishes flexible licensing requirements for certified public accountants under the Board. This bill establishes the licensing requirements to include completion of a bachelor’s degree, two years of general accounting experience, and passage of the Uniform CPA Examination. It also provides options to reduce the two-year general accounting experience requirement through completion of an advanced degree or Board-approved certificate program. Additionally, this bill modernizes existing mobility provisions and makes other technical and clarifying changes.

Sunset Review:

Last review: 2023 | Next review: 2027

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Business Modernization

In September 2024, the Acupuncture Board added additional licensing functionality to its web-based licensing platform, Connect. As a result, the Board’s paper based Active/Inactive status request process is now available as an online process.

In October 2024, the Acupuncture Board secured a two-year contract to incorporate its enforcement processes into the Connect system. Development of enforcement processes began in 2025.

In January 2025, the Acupuncture Board rolled out its Continuing Education (CE) audits feature, which allows licensees selected for a CE audit to submit required materials online. It also allows staff to more easily sort, review, and analyze submissions, leading to faster processing and more efficient communication with licensees.

Regulatory Changes

In October 2024, the Board implemented regulations to create an application process for Foreign Credential Evaluator Approval. This change was a result of Assembly Bill 2190 (Salas, Chapter 667, Statutes of 2016). It requires foreign-trained applicants to use approved credential evaluators to ensure their education meets California requirements.

ACUPUNCTURE BOARD

In October 2024, the Board implemented regulations requiring a minimum of four Continuing Education (CE) hours in Laws and Ethics as a condition of license renewal.

Communications and Outreach

In March and June 2025, the Board Licensing Committee met with stakeholders to discuss how to modernize the scope of the profession. The discussion also included how the Board could work with the acupuncture profession, its educators, and institutions on making changes to required curriculum, addressing consumer confusion on degree titles and levels of education, and achieving greater alignment with healing arts education to allow for further integration into the medical environment.

NEW LEGISLATION

There was no enacted legislation solely related to this Board.

ARBITRATION CERTIFICATION PROGRAM

Certifies and monitors third-party arbitration programs of participating automobile manufacturers to ensure they comply with California law on new vehicle warranties and state-certified arbitration programs. Arbitration is an informal process for consumers and vehicle manufacturers to resolve warranty disputes under the Lemon Law. Many manufacturers participate in an arbitration program that is certified by the Arbitration Certification Program.

California Code of Regulations, title 16, section 3396.1–3399.6

Sunset Review:

The Arbitration Certification Program (ACP) is not subject to sunset review because it is not a board or bureau.

PROGRAM HIGHLIGHTS

RECIPROCITY

ACP does not have reciprocity.

ACCOMPLISHMENTS

Communications and Outreach

The Arbitration Certification Program (ACP or Program) participated in multiple public events and distributed printed materials in multiple languages to educate a diverse public about the benefits of arbitration. The Program also updated all information on its website to improve consumer navigation and understanding. ACP continues to collaborate with DCA's Communications Division to increase outreach and incorporate social media into its strategy by posting relevant Lemon Law communications and resources for consumers.

Strategic Plan

On September 3, 2024, ACP published its 2024–2028 Strategic Plan, which identified four main target areas and a total of 16 goals. ACP values accountability and set a timeline of five years to reach all identified goals and objectives. The Program is in its second year of the plan and has already met 10 of its 16 goals. ACP is passionate about protecting California consumers and assisting them with handling Lemon Law claims. Completion of the identified goals will result in the level and quality of service that stakeholders deserve.

Organizational Changes

ACP will continue to conduct in-person on-site visits with the three certified programs—Better Business Bureau (BBB) Auto Line, California Dispute Settlement Program

ARBITRATION CERTIFICATION PROGRAM

(CDSP), and Consumer Arbitration Program (CAP)—to ensure continued collaboration. It will also conduct virtual monitoring with the 25 manufacturers, which include 40 certified vehicle brands. ACP monitors the arbitration process to ensure a fair, reliable, and informal method of resolving disputes. Monitoring activities are necessary to confirm adherence to relevant laws through the arbitration process, ensure a fair and expeditious process for consumers, and increase the effectiveness and efficiency of the program. ACP worked in collaboration with certified programs to identify deficiencies and address concerns expressed by consumers in the annual survey. ACP management will continue working to ensure alignment with consumer and certified program expectations.

In 2024, ACP conducted a Consumer Satisfaction Survey (CSS) which was sent quarterly to consumers who participate in Arbitration. The survey responses were then compiled into an annual report in April 2025. ACP contacted 944 consumers who participated in the arbitration process in 2024. Of those contacted, 416 utilized the BBB Auto Line, 518 utilized the CDSP, and 10 utilized CAP-Motors. CSS response rates showed an increase from the previous year, providing ACP with valuable feedback from those who participated.

Consumer Protection

In calendar year 2024, ACP monitored the return of millions of dollars to consumers in the form of refunds, replacement vehicles, extended service contracts, and repairs awarded by state-certified arbitration programs. As disclosed in the following tables, ACP certified three new vehicle manufacturers and recertified two manufacturers that transferred programs. In total, ACP conducted 883 investigations, monitored 654 dispute meetings, completed 840 dispute file reviews, and responded to 1,344 consumer inquiries with information and referrals to arbitration programs for eligibility determination. This is a significant increase in the number of monitoring activities handled compared to the previous annual report.

NEW LEGISLATION

SB 26 (Umberg, Chapter 1, Statutes Of 2025) creates a process for manufacturers to opt in to be governed by newly enacted Lemon Law civil procedures put into place by AB 1755 (Kalra, Chapter 938, Statutes of 2024) for actions seeking restitution or replacement of a motor vehicle. Some of these provisions became effective on April 1, 2025, and some became effective on July 1, 2025. If a manufacturer opts in to the AB 1755 requirements, they are subject to those requirements for five consecutive years and must submit written notice to the Program

under the Department. This bill will require the Program to collect and publish on its website a list of manufacturers that have opted into these new Lemon Law provisions.

Business and Professions Code section 5500–5610.7
California Code of Regulations, title 16, section 100–166

Sunset Review:

Last review: 2024 | Next review: 2028

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to title 16, California Code of Regulations, Division 2, section 121, reciprocity applicants must hold a current and valid license in a qualifying jurisdiction, provide verification of eight years of combined education and work experience, meet the licensing requirements equivalent to those in California, and successfully complete the California Supplemental Examination.

ACCOMPLISHMENTS

Board Leadership

The Board elected a new President in December 2024. Ron Jones took over as President, replacing Charles L. Ward III, who served two terms. The Board also elected Robert Pearman as Vice President and Victoria Brash as Secretary.

New Strategic Plan

The Board adopted a new, four-year Strategic Plan in February 2025. This new Plan focuses on expanding outreach opportunities and reviewing existing licensing and continuing education requirements to ensure relevancy and remove any unnecessary barriers to licensure.

Business Modernization

The Board completed implementation of the Connect online licensing system, which allows candidates to apply and renew online, and view and manage their profile. All applications are now available through Connect: Initial applications launched in mid-2023, and renewal applications in November 2024.

Updates to Enforcement

The Board revised its disciplinary guidelines to better protect the public from licensees who have committed one or more violations of the Architects Practice Act, to conform the guidelines to recent statutory changes, and provide clarity to probationers of the terms of probation.

Updates to Licensing

The Board revised the amount of experience it grants to licensure candidates by providing additional credit to candidates with degrees related to architecture as well as increased credit for community college degrees and coursework.

The Board implemented a statutory change to revise the term of an initial license to two years from issuance, rather than tying the renewal to the licensee’s birth month and prorating the initial license term. This change allows greater annual budgetary consistency in revenue that will be realized over the next few renewal cycles.

NEW LEGISLATION

AB 671 (Wicks, Chapter 470, Statutes of 2025) defines a “qualified professional certifier,” as an architect licensed by the Board who has five years of experience in commercial building design and carries specified professional liability insurance. This bill allows qualified professional certifiers to certify compliance with building standards for a tenant improvement for restaurants. This bill also allows the Board to take disciplinary action against a licensee who falsifies building plan certifications. Additionally, this bill makes qualified professional certifiers liable for any damages arising from negligent plan review and allows cities and counties to adopt additional requirements for qualified professional certifiers, including training, fees, and penalties.

AB 759 (Valencia, Chapter 380, Statutes of 2025) beginning January 1, 2027, and until January 1, 2037, allows individuals to use the title “architect-in-training” if they are a candidate for licensure by the Board and have passed at least one division of the licensure examination. This bill prohibits “architects-in-training” from independently offering or providing architectural services to the public. Additionally, this bill allows the Board to disclose, upon request, whether an individual is authorized to use the title, and allows the Board to take disciplinary action for violations of this bill’s provisions.

TECHNICAL COMMITTEE
Public Protection through Examination, Licensure, and Regulation

LANDSCAPE ARCHITECTS TECHNICAL COMMITTEE

The Landscape Architects Technical Committee’s purpose is to act in an advisory capacity to the California Architects Board on examination and other matters pertaining to the regulation of the practice of landscape architecture in California.

www.latc.ca.gov

Staff: 5 civil servant positions, 0 exempt

Licenses, Registrations, Certificates, and Permits: 3,544

Committee Membership: 5 licensees

COMMITTEE HIGHLIGHTS

RECIPROCITY

Pursuant to California Code of Regulations (CCR), Division 26, title 16, section 2615, in order to be eligible for reciprocal licensure in California, a candidate must be licensed as a landscape architect in a U.S. jurisdiction, Canadian province, or Puerto Rico, by having passed a written examination substantially equivalent in scope and subject matter to the Landscape Architect Registration Examination, meet the education and training requirements for first-time examination candidates, and successfully complete the California Supplemental Examination. For purposes of reciprocity, the Committee recognizes two national examinations, which are the Landscape Architect Registration Examination and Uniform National Examination for Landscape Architects.

ACCOMPLISHMENTS

Updates to Personnel

All LATC staff positions were successfully filled during this reporting period, resulting in a fully staffed and operational team. This accomplishment has enhanced the Committee’s ability to carry out its regulatory, licensing, and enforcement responsibilities effectively. With additional staff in licensing, enforcement, and administrative roles, LATC is able to improve internal processes, reduce response times, and increase the consistency and quality of services provided to consumers and licensees.

LANDSCAPE ARCHITECTS TECHNICAL COMMITTEE

Strategic Plan

LATC finalized its 2025–2028 Strategic Plan on February 20, 2025, following extensive internal collaboration and stakeholder engagement. The plan’s goals and objectives focus on enhancing consumer protection, improving licensing and enforcement processes, and strengthening communications. Implementation of the plan began immediately following its adoption, with staff aligning daily operations and project planning to support measurable progress toward strategic objectives. For example, the LATC Instagram account has doubled its followers, and the LATC LinkedIn account has grown from three to more than 500 connections, improving communication and outreach. The plan serves as a guiding document that ensures LATC remains focused on long-term priorities while responding effectively to emerging challenges in the profession.

Communications and Outreach

LATC expanded its digital outreach efforts through its LinkedIn and Instagram accounts. These platforms serve as tools for timely communication with licensees, applicants, and the public. Through LinkedIn, LATC plans to share regulatory updates, licensing information, and grant opportunities tailored to a professional audience. Instagram provides an accessible and visual format to connect with students, early-career professionals, and the broader public, offering reminders about application deadlines, exam resources, and consumer protection information.

LATC staff has increased engagement with LinkedIn and Instagram by posting more and building an online community of landscape architects, professors, and students with whom they can share key updates and relevant information. LATC has also connected with the Council of Landscape Architectural Registration Board (CLARB), the agency that develops and administers the Landscape Architect Registration Examination (LARE), the nationally recognized exam required for licensure in the United States and Canadian provinces, allowing LATC to promote national updates as well as state updates. LATC has increased public engagement, with follower counts and post interactions steadily growing throughout the fiscal year. These outreach efforts have improved public awareness of the landscape architecture profession and the regulatory role of LATC.

NEW LEGISLATION

There was no enacted legislation solely related to this Committee.

California Code of Regulations, title 4, section 201–829

Sunset Review:

Last review: 2024 | Next review: 2028

COMMISSION HIGHLIGHTS

RECIPROCITY

Applicants licensed in another state must meet or exceed the Commission’s licensing requirements because no national governing body exists. However, medical examinations from other states by a licensed physician may be accepted if they are completed to the Commission’s standards and requirements.

ACCOMPLISHMENTS

Consumer Protection

The Commission submitted its specialty license plate application to the California Department of Motor Vehicles (DMV) for approval. This new plate, designed to honor professional fighters, is a meaningful step toward supporting retired athletes who have contributed to their sport in California.

Pending DMV approval, the specialty license plate is expected to launch in early 2026. CSAC must meet DMV’s pre-order plate requirement before the plate becomes officially available. Proceeds from the sale of these specialty license plates will directly fund pension benefits for retired fighters. The initiative reflects the Commission’s ongoing commitment to fighter welfare and legacy preservation.

Communications and Outreach

The Commission produced and published a video demonstrating and explaining the changes to the Unified Rules of Mixed Martial Arts that became effective on

CALIFORNIA STATE ATHLETIC COMMISSION

November 1, 2024. They were the most significant changes made since 2016, and they included:

- 12-to-6 Elbow Strike Legalization—Previously considered a foul, the downward-pointing elbow strike (commonly referred to as the “12-to-6” elbow) is now legal.
- Redefinition of a Grounded Fighter—The criteria for what defines a “grounded opponent” has been revised. Fighters with one or both hands on the mat are no longer considered grounded, meaning they can now be legally kned or kicked in the head. This is a major shift in fight strategy and officiating.

The video was shared by multiple state and tribal organizations. The video can be found here: www.youtube.com/watch?v=H-HtCLihY_I&list=PLAGnBcgB9ibsxeFu5OU2papadyCWexSJZ&index=23.

Industry Changes

Senate Bill 1456 (Ashby, Chapter 486) was signed into law on September 22, 2024, and became effective on January 1, 2025. This bill increases the minimum purse for professional fighters to at least \$200 per round, increases the boxers’ pension ticket assessment to \$1, increases the maximum contribution per boxing event to \$10,000, and requires immediate medical care and transport by an onsite ambulance as ordered by a ringside physician without delay. The language requiring an onsite ambulance to transport the fighters without delay will further ensure that all athletes participating in a Commission-regulated event continue to have the best medical care possible.

BUREAU HIGHLIGHTS

RECIPROCITY

The Bureau does not have reciprocity.

ACCOMPLISHMENTS

Consumer Protection

In July 2024, the Bureau launched the Vehicle Safety Systems Inspection (VSSI) Program. This program enhances consumer safety by expanding the inspection required to register a revived salvage vehicle with the Department of Motor Vehicles (DMV). The inspection checks critical vehicle safety systems and identifies any outstanding safety recalls. In the first year, 497 VSSI stations were licensed, and 177,998 inspections were conducted. The 16.1% inspection failure rate underscores the program’s role in keeping unsafe vehicles off California roads.

To enhance repair cost transparency for consumers, the Bureau developed new regulations, effective July 1, 2025, to strengthen estimate requirements when automotive repair dealers (ARDs) perform a “tear down” (i.e., disassembly of a vehicle or component(s) to better assess needed repairs) and to clarify ARD disclosure requirements in repair transactions involving third-party payors (e.g., insurance companies).

Smog Check Program

In response to advancing vehicle technology, the Bureau adopted new Smog Check inspection equipment requirements, which took effect on July 1, 2024. These regulations direct the replacement of current On-Board

Diagnostic Data Acquisition Devices (DADs) with a more advanced version that has broader diagnostic capabilities. The updated DADs ensure compatibility with newer vehicles and enhance the Bureau's ability to detect fraudulent Smog Check activity. Development, certification, and deployment of the updated DADs is ongoing.

To safeguard air quality and maintain the integrity of the Smog Check Program, the Bureau conducted 1,773 Smog Check station audits, resulting in 47 referrals for further investigation and possible enforcement action. The Bureau leveraged real-time data analysis to block 2,604 fraudulent Smog Check certificates of compliance from being issued. In addition, the Bureau continues its partnership with the DMV to identify and prevent vehicle registration fraud.

On January 1, 2025, the Bureau implemented regulatory updates to increase the incentive amounts offered through the Consumer Assistance Program (CAP) and communicated the updates through an English and Spanish-language outreach campaign. These changes expanded financial assistance for income-eligible consumers, who can now receive up to \$2,000 to retire a vehicle or up to \$1,450 for emissions-related repairs. Consumers who do not meet income eligibility requirements may qualify for up to \$1,350 to retire a vehicle. The regulatory updates also allow consumers to apply for emissions repair assistance more than once for the same vehicle. As a result, the program saw a 20% increase in applications. In total, 23,642 vehicles were retired, and 4,847 consumers received financial assistance for emissions repairs.

Updates to Enforcement

To enhance consumer protection and promote compliance with state law, the Bureau continued to emphasize education as a key element of its enforcement strategy. The Bureau gave 397 Write It Right presentations to ARDs and their staff to help them understand and comply with estimate and invoice documentation requirements in automotive repair transactions. In response to automotive repair complaints, the Bureau held 466 educational conferences with licensees, which are meetings with licensees intended to correct minor compliance concerns and ensure adherence to Bureau laws and regulations.

Under authority granted by AB 471 (Low, Chapter 372, Statutes of 2021), the Bureau expanded its citation program to include violations of the Automotive Repair Act by ARDs. The program offers an informal appeal process and includes a remedial training option for cited licensees. These enforcement tools help achieve compliance with

Bureau laws and regulations while maintaining fairness and transparency.

To improve operational efficiency, the Bureau established two new branches within the Field Operations and Enforcement Division (FOED). The Field Support Services Unit was established in July 2024 to streamline complaint processing and to centralize administrative support for the Bureau's 11 field offices, leveraging technology to ensure consistent and efficient operations throughout the state. The Statewide Investigations Branch was created in December 2024 to modernize investigative practices in response to advancements in vehicle technology and emerging automotive repair practices that may pose risks of harm to consumers

Updates to Licensing

In October 2024, the Bureau marked an important step in its business modernization efforts with the full implementation of its online licensing platform. The system now supports the submission and processing of all license applications, allowing applicants to complete the entire process online. Key features include document upload, fee payment, deficiency resolution, and real-time status updates, helping to improve security, efficiency, and accessibility.

In addition to core licensing functions, the online platform allows ARDs to report changes in business information or controlling individuals of the business, such as corporate officers. It also enables ARDs to submit educational certifications for their business and employees. These certifications are recognized on the Bureau's Auto Shop Locator, helping consumers to make informed decisions when choosing a repair facility.

Workforce Development

The Bureau continued supporting automotive career training through its Cars for Schools initiative, which loans retired vehicles from the Consumer Assistance Program to high schools, colleges, and regional occupational training programs. Of the 128 vehicles loaned through Cars for Schools, over 60% went to educational institutions that serve students from disadvantaged communities. This effort helps train the next generation of automotive technicians and expands access to high-quality learning opportunities across California.

NEW LEGISLATION

SB 774 (Ashby, Chapter 786, Statutes of 2025) extends the sunset date related to the Bureau of Automotive Repair's informal citation process to align with their January 1, 2028, sunset date.

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 7331, the Board grants a license to practice to an applicant if the applicant submits all of the following to the Board:

- A completed application form and all fees required by the Board.
- Proof of a current license issued by another state to practice that meets all of the following requirements:
 - It is not revoked, suspended, or otherwise restricted.
 - It is in good standing.

ACCOMPLISHMENTS

Updates to Enforcement

On November 12, 2024, the Board launched the Mobile Inspection Platform (MIP). The MIP was developed in partnership with DCA, the California Department of Technology’s Technology Modernization Fund, and the California Veterinary Medical Board. The MIP eliminates a paper process and allows for the inspection report to be emailed to licensees immediately, with photographs of all violations included. The MIP also interfaces with the BreEZe database and eliminates the manual entry of inspections that have no violations.

In 2022, the Board designated a position to send request for payment notices for outstanding fines. Fiscal Year 2024–25 has proven to be the most successful year in addressing outstanding citations and fines. The Board collected on 742 more citations than the previous year, resulting in nearly \$500,000 collected from those

BOARD OF BARBERING AND COSMETOLOGY

citations. The Board sent 5,340 requests for payments, referred 1,261 unpaid fines to the Franchise Tax Board, and referred 891 outstanding fines to a debt collection agency. While the number of outstanding records has decreased since that time, this is the first year the Board is reporting the number of outstanding records and the outstanding fine balances have declined in comparison to both the prior year and past years.

Updates to Licensing

In August 2024, the Board approved the first barbering and cosmetology school in a state hospital in collaboration with the California Department of State Hospitals (DSH), which provides mental health services to patients admitted into DSH facilities. The new program at Napa State Hospital will allow a student to complete their required education while completing their stay at the hospital. The student will then be allowed to take the examination prior to being released, empowering them to leave the hospital ready for employment. The collaboration between the hospital and the Board is the first of its kind and allows for a tremendous opportunity for individuals within the state hospital system.

NEW LEGISLATION

There was no enacted legislation solely related to this Board.

BOARD HIGHLIGHTS

RECIPROCITY

While the Board does not have true reciprocity, the Board does allow for license portability through a new licensure-by-credential pathway established by SB 679 (Bates, Chapter 380, Statutes of 2019). This innovative approach provides a streamlined application process for out-of-state licensed marriage and family therapists, licensed clinical social workers, and licensed professional clinical counselors to become licensed in California. To apply for a license under this pathway the following requirements must be met:

- The applicant must hold a license in another U.S. jurisdiction for at least two years.
- The license must be current, as well as active and unrestricted for at least two years immediately before the date an application is submitted to the Board.
- The license must be the highest level for independent clinical practice in that jurisdiction.
- The degree that qualified the applicant for the license is a master’s or doctoral degree obtained from a school holding a regional or national institutional accreditation recognized by the U.S. Department of Education, or a school approved by the California Bureau for Private Postsecondary Education.

Additionally, the applicant must take and pass the California Board of Behavioral Sciences’ Law and Ethics Examination and complete additional continuing education in specific coursework.

ACCOMPLISHMENTS

Sunset Review

In January 2025, the Board submitted its 2025 Sunset Review Report to the Legislature, assessing its regulatory performance, structural organization, and policy impact. The report included suggestions for legislative and regulatory changes to modernize licensure pathways, expand telehealth rules, and enhance continuing education flexibility. On March 24, 2025, the Board President and Executive Officer participated in a joint sunset review hearing of the Senate Business, Professions, and Economic Development Committee and the Assembly Business and Professions Committee to discuss the Board’s efforts regarding workforce development, telehealth and online therapy, outreach and education, and improving efficiencies.

Communications and Outreach

The Board’s Outreach and Education Committee, established in November 2024, held its inaugural meeting in February 2025. The Committee’s primary objectives include enhancing stakeholder engagement, improving consumer education, broadening outreach to diverse populations, increasing involvement with schools and public events, and boosting stakeholder participation in Board meetings.

The Board expanded its outreach efforts by engaging with professional organizations and county and governmental agencies to share updates on licensure, supervision, enforcement, and regulatory changes. Additional efforts included producing and publishing an informational video for students and faculty on registration, licensure pathways, and Board initiatives, as well as centralizing outreach coordination within a dedicated unit.

Updates to Licensing

The Board conducted a Licensure Pathway Survey to seek input from Board licensees and registrants about barriers they are facing, or may have faced, on their path to licensure. The survey generated 3,170 complete responses from students, registrants, and licensees. The Board initiated licensure pathway amendments to reduce barriers in the licensure process and developed an action plan with short-term and long-term workforce development goals.

Licensing staff implemented the use of a new evaluation sheet to calculate and review supervised hours. This tool was designed to improve efficiency and streamline the application review process. This enhancement also supports expanded and simplified cross-training opportunities that are currently taking place and has contributed to a reduction in application processing delays.

The Board’s Workforce Development Committee initiated a review of the education requirements for Licensed Marriage and Family Therapists and Licensed Professional Clinical Counselors to identify and reduce unnecessary barriers while maintaining strong consumer protection. The Committee is evaluating degree and coursework standards and considering alignment with national standards. The goal is to modernize and streamline licensure pathways and ensure they support the behavioral health workforce.

Diversity, Equity, Inclusion, and Accessibility

Board staff participated in several in-person diversity, equity, inclusion, and accessibility trainings facilitated by DCA’s SOLID Training and Planning Solutions to assist with improving communication and create a culture of gratitude and inclusion in the workplace.

Organizational Changes

The Board experienced notable staff transitions, including retirements of long-serving employees along with promotions and new hires across multiple units. These changes supported continuity of operations while opening opportunities for professional growth within the Board.

NEW LEGISLATION

SB 775 (Ashby, Chapter 787, Statutes of 2025) is the sunset bill for the Board of Behavioral Sciences and the Board of Psychology and extends the sunset date for each board to January 1, 2030. This bill authorizes the Board of Behavioral Sciences to adopt the Association of Marital and Family Therapy Regulatory Boards national examination. It extends sunset provisions relating to temporary practice allowances and deletes a sunset date regarding certain supervisory allowances. This bill also updates the education requirements for licensed educational psychologists and updates the Board of Behavioral Sciences’ retired license statutes.

BUREAU HIGHLIGHTS

RECIPROCITY

The Bureau does not have reciprocity.

ACCOMPLISHMENTS

Accessibility to Bureau Services

CFB Connect allows for the online submission of consumer complaints, license applications, and electronic payments. This system improves accessibility of applications, renewals, and reports thus supporting the continuity of licensure and business in California.

This modernization initiative empowers consumers to easily file complaints and upload their documentation and licensees to better manage their licenses, thus increasing access and removing barriers for a population who would prefer to do business online.

Technological Advancements

In collaboration with DCA’s Office of Information Services (OIS) and Organizational Improvement Office (OIO), among others, CFB continued its transition into CFB Connect and released multiple applications for:

- Cemetery Manager
- Crematory Manager
- Cemetery Salesperson
- Quarterly Fee Payments
- Consumer Complaint Form

CFB continually works towards the development and release of the remaining initial licensure applications for both personal and business licenses, as well as the remaining license maintenance applications.

CEMETERY AND FUNERAL BUREAU

New Advisory Committee

CFB successfully appointed a new Advisory Committee with both new and returning members who have committed to serve through March 2029. The Advisory Committee meetings are a forum for both consumers and licensees to provide input on funeral and cemetery-related issues and assist CFB in addressing its regulatory obligations in an open and transparent environment. The focus of the members is to advise based on their diverse experience and education. The members bring valuable expertise and play a vital role in advising on CFBs licensing, enforcement, and regulatory functions.

Sunset

In September 2024, CFB’s Sunset Bill, Assembly Bill 3254, (Berman, Chapter 589, Statutes of 2024), was chaptered into law extending operations through January 1, 2029. Among other items, the bill mandated each cemetery authority to report on their endowment care trust fund as part the CFB sufficiency study. Additionally, CFB was directed to convene a workgroup of designated stakeholders to find solutions for the continued care of abandoned, unlicensed cemeteries, and to provide a report to the Legislature summarizing the discussions and recommendations.

Strategic Plan

In July 2024, CFB released its 2024–2028 Strategic Plan, which outlines goals and objectives in the areas of licensing, enforcement, legislation and regulations, outreach and communication, and administration. DCA’s SOLID Planning Unit provided critical strategic planning support that guided the development of this plan that reflects CFB’s consumer protection mission. Highlights include a focus on updating the website to provide clear and concise information, pursuing technology improvements for efficient processing of license applications, increasing outreach to stakeholders, and investing in staff development. These priorities aim to ensure CFB effectively fulfills its mission of consumer protection over the next five years.

Regulatory Changes

In October 2024, the approved rulemaking regulatory action to amend Title 16, California Code of Regulations section 230 went into effect. This amendment was implemented to better reflect the current statutory provisions and improve clarity for funeral establishments to train apprentice embalmers. The revised language ensures consistency and improves licensee understanding for application of the law.

In January 2025, the approved rulemaking regulatory action to amend Title 16, California Code of Regulations section 2326.01 went into effect. This new regulation

implements the law permitting the assignment of a crematory license to a new owner. This change supports business continuity during a change of ownership, ensuring consumers can continue to be served.

NEW LEGISLATION

SB 105 (Weiner, Chapter 104, Statutes of 2025) is a budget bill that, among other things, appropriates \$2 million from the General Fund to support maintenance and upkeep costs for Lincoln Memorial Park Cemetery and the Woodlawn Cemetery.

SB 777 (Richardson, Chapter 658, Statutes of 2025) requires the Bureau to convene an existing statutorily mandated workgroup by March 1, 2026, instead of July 1, 2027, and the Bureau must submit the mandated report from that workgroup to the Legislature by June 1, 2026, instead of January 1, 2028. This bill also expands on the composition of the workgroup by including specific stakeholders.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Board Leadership and Appointments

The Board elected Laurence Adams, D.C. as chair, Pamela Daniels, D.C. as vice chair, and Janette N.V. Cruz as secretary to lead the Board in its commitment to protecting Californians through effective regulation and exemplary public service.

New Subcommittee on Chiropractic Specialties

The Board created a new Subcommittee on Chiropractic Specialties to enhance consumer protection by developing regulatory standards for the recognition and advertising of specialty programs and certifications within the chiropractic profession. The Subcommittee held its first meeting in July 2025 and plans to present its completed regulatory proposal to the Board for approval in Fiscal Year (FY) 2025–26.

Strategic Plan

In October 2024, as part of the Board’s continued efforts to ensure high-quality, patient-centered and collaborative care for all Californians, the Board adopted an amended 2022–2026 Strategic Plan. The updated plan places a greater emphasis on advancing equity within the chiropractic profession and reaching all Californians through enhanced communication strategies. Key initiatives include increasing stakeholder engagement in Board activities,

recruiting a diverse pool of subject matter experts to support the Board’s enforcement program, and improving the Board’s digital presence by developing informative, accessible content for consumers and licensees across its website and social media platforms.

Communications and Outreach

Throughout FY 2024–25, Board leadership actively engaged with students, applicants, licensees, and other stakeholders by delivering informational presentations on upcoming regulatory changes, the Board’s licensure and enforcement processes, and best practices for maintaining a chiropractic practice in compliance with California law.

In addition, the Board’s executive officer participated in the annual California chiropractic round table meeting, a collaborative forum with leaders of chiropractic associations and educational institutions. This meeting serves as a platform for meaningful discussion and collaboration on issues related to licensure, professional standards, and consumer protection.

Occupational Analysis and Examination Validation

DCA’s Office of Professional Examination Services (OPES) completed the Occupational Analysis of the Chiropractic Profession in August 2024. This report provides a current description of practice for the chiropractic profession structured into four content areas—patient intake and history, examination and assessment, treatment and case management, and laws and ethics—that the Board used to construct a valid and legally defensible California Chiropractic Law Examination (CCLE), and to develop new competency areas for annual continuing education requirements.

OPES also conducted a comprehensive review of the five-part national chiropractic board examination to ensure the examination procedures meet professional and technical standards and a linkage study to identify any areas of California practice that are not measured by the national examination. OPES released their final report and findings in June 2025.

Updates to Educational Standards and Licensure

The Board collaborated with leaders in chiropractic education to develop a regulatory proposal aimed at modernizing the standards for approval of Doctor of Chiropractic (D.C.) degree programs. The proposal eliminates outdated and redundant institutional requirements and introduces updated curriculum and clinical training requirements designed to expand access to chiropractic education while promoting academic rigor, professional competency, and responsiveness to the healthcare needs of California’s diverse patient

population. The Board approved the proposal at its August 2025 meeting and plans to implement the new regulations in FY 2025–26.

Additionally, the Board enhanced its Licensing Program to streamline the processing of examination and licensure applications. As a result of these improvements, initial D.C. licenses can be issued on the same business day they are requested by applicants who have successfully passed the CCLE. Expanding on these efforts to reduce barriers to licensure, the Board is also exploring partnerships with chiropractic programs to electronically receive academic records, reduce the number of incomplete applications, and evaluate the feasibility of a pathway to licensure upon graduation with a D.C. degree.

NEW LEGISLATION

There was no enacted legislation solely related to the Board.

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 7065.4, the Board has reciprocity agreements in place with Arizona, Louisiana, Nevada, and North Carolina. The following reciprocity requirements are the same for these states:

- The contractor must be applying for a license in a classification that appears on that state’s Reciprocal Classifications List.
- The contractor must have held an active license in good standing in one of the reciprocal states for the previous five years.
- The contractor must submit to the Board the Request for Verification of License form that is completed by the licensing entity under which he or she is already licensed.
- The contractor must complete the Application for Original Contractor’s License.
- The Certification of Work Experience form 13A-11 must be used to report and confirm the journey-level work experience for the previous five years.

In addition, a Licensed Contractor, regardless of state of licensure, can apply for the General Building Contractors license if they have passed the national Commercial General Building examination.

If the Board grants reciprocity to a contractor, it can waive the trade portion of the examination (the contractor still must take the business law examination section); however, the Board retains the right to require the examination.

ACCOMPLISHMENTS

Disaster Response Updates

CSLB continues to provide support to disaster survivors in California, and, in particular, those devastated by the wildfires in Southern California in January 2025. Through the end of April 2025, CSLB staffed disaster recovery centers (DRCs) in Los Angeles, Altadena, and Pasadena. CSLB staff assisted more than 2,600 wildfire survivors at these centers.

In alignment with DCA's values of diversity, equity, inclusion, and accessibility (DEIA), CSLB translated its disaster recovery materials into multiple languages. CSLB translated its "Rebuilding After a Disaster" video into Spanish and translated two pamphlets — "Fast Facts: Rebuilding After a Disaster" and "Fast Facts for Debris Removal"— into Spanish, Armenian, Chinese, Korean, Tagalog, and Vietnamese.

To support the most effective sharing of disaster recovery information, CSLB partnered with Los Angeles-area legislators to provide recovery information to their constituents in webinars. CSLB also hosted its own webinars in April 2025 to provide homeowners with information about debris removal and the rebuilding process. The webinars were provided in English and Spanish, in coordination with Los Angeles County.

Beginning in March 2025, members of the CSLB Statewide Investigative Fraud Team (SWIFT), alongside various state partners, conducted twice-weekly enforcement sweeps in the fire zones to deter unlicensed activity and ensure that those working in the disaster areas had valid licenses and classifications to perform the recovery efforts. CSLB's proactive outreach and enforcement was very successful, as evidenced by only three unlicensed contractors identified working on projects in the burn area.

Updates to Enforcement*

Furthering its consumer protection mission in Fiscal Year 2024–25, CSLB complaint handling resulted in more than \$35.3 million in restitution refunded to consumers which includes its outstanding liability suspension program recovering \$7.4 million in construction-related judgments.

In 2025, CSLB formally established the new Multiple Offender Unit (MOU) within the Enforcement Division to focus on contractors with an excessive number of complaints in the solar and accessory dwelling unit industries. MOU focuses on early complaint disclosure and an accelerated complaint handling process that provides the respondent contractor with 30 days to

resolve violations and change business practices or be subject to an accusation to suspend or revoke the contractor's license. So far, eight licensees have either had their license revoked or been placed on formal probation by the MOU.

Updates to Licensing

After launching its Spanish-language exams in 2023, CSLB revised the translation from European Spanish to Latin American Spanish in Fiscal Year 2024–25 and saw a 10% increase in pass rates. An additional 6% gain was achieved when CSLB added a toggle feature that enables candidates to switch between the Spanish and English exams. CSLB continues to translate more applications, instructions, surveys, and forms into Spanish to reduce barriers to licensure.

Communications and Outreach

CSLB presented 42 Senior Scam Stopper seminars in Fiscal Year 2024–25. These in-person and virtual seminars educate seniors about hiring contractors and help them avoid being scammed. In response to an increase in complaints related to accessory dwelling units (ADUs), CSLB added payment restriction content to the presentations and issued a consumer alert in October 2024 to remind both consumers and contractors of rules that preclude excessive upfront payments. To further promote awareness, CSLB partnered with Board Member and Building Official Steve Panelli to publish a June 2025 video "Tips for Building an ADU" and created a related "Fast Facts" publication.

Information Technology

In May 2025, CSLB successfully launched its new Enterprise Document Management System, utilizing cloud software platform Box. The Box platform is a comprehensive, cloud-based content management system that allows CSLB to securely store, share, and manage information, as well as automate workflow and collaborate on digital content. More than 453,000 documents have been migrated into the new system, and 25 million files have been converted to searchable PDF documents.

NEW LEGISLATION

AB 521 (Carrillo, Chapter 265, Statutes of 2025) clarifies that the Board is not liable for attorney fees resulting from civil claims involving a contractor's cash deposits filed with the Board in lieu of a license bond.

* Los Angeles County requested CSLB temporarily pause enforcement operations in mid-June, which have since resumed.

AB 1002 (Gabriel, Chapter 567, Statutes of 2025) allows the Attorney General to file a civil action to suspend or revoke a contractor’s license if they fail to pay their workers’ entire wage, fail to pay a wage judgment, or violate a court order regarding payment of wages. This bill also requires the Attorney General to alert the Board at least 30 days before filing a wage theft lawsuit to give the Board time to intervene or collaborate with the Attorney General in the proceedings. Additionally, this bill allows the courts to order the Board to suspend or revoke a license of a contractor under the provisions of the Contractors State License Practice Act if the Attorney General prevails.

AB 1327 (Aguiar-Curry, Chapter 348, Statutes of 2025) allows consumers to cancel a home improvement contract by email. This bill also requires home improvement contracts to include the contractor’s email address and a phone number for the contractor or their representative to assist with locating and completing the notice. Additionally, this bill clarifies that consumers may file a complaint with the Board if the contract seller fails to include or attach a “Notice of Cancellation” to the contract.

SB 61 (Cortese, Chapter 49, Statutes of 2025) caps retention payments at 5% of the contract price for private work of improvement projects between an owner and an original contractor, an original contractor and a subcontractor, or two subcontractors. This bill also makes exceptions for faithful performance, payment bonds, and residential projects that are not mixed-use and do not exceed four stories.

SB 291 (Grayson, Chapter 455, Statutes Of 2025) increases civil penalties for certain violations of workers’ compensation insurance requirements. This bill also requires the Board to submit a report to the Legislature on the proposed workers’ compensation insurance exemption verification process, no later than January 1, 2027.

SB 456 (Ashby, Chapter 758, Statutes of 2025) exempts an artist who draws, paints, applies, executes, restores, or conserves a mural and performs legally authorized work from the requirement of obtaining a C-33 specialty contractor’s license from the Board. This bill defines a “mural” as a unique work of fine art drawn or painted by hand directly onto walls or ceilings, as specified. Additionally, this bill explicitly excludes painted wall signs from this definition.

SB 517 (Niello, Chapter 585, Statutes of 2025) requires a contractor to disclose on a home improvement contract if a subcontractor will be used on a home improvement project upon request. This bill also specifies that, while

the prime or direct contractor is responsible for the construction project, a subcontractor can be subject to administrative discipline by the Board for violations of the law.

SB 779 (Archuleta, Chapter 233, Statutes of 2025) establishes and increases civil penalties for an individual or licensee of the Board to a minimum of \$500 or \$1,500, depending on the violation of the California Contractors License Law. This bill also allows the Board to update the minimum fines every five years according to the Consumer Price Index. Lastly, this bill increases the Board’s fund reserve cap from 6 months to 12 months of annual authorized board expenditures.

BOARD HIGHLIGHTS

RECIPROCITY

The Board has established reciprocity with the National Verbatim Reporters Association (NVRA). In accordance with Assembly Bill 3252, effective January 1, 2025, applicants who hold a Certified Verbatim Reporter (CVR) or Certified Verbatim Reporter–Stenotype (CVR-S) certificate from the NVRA will not be required to take the dictation examination. These applicants will only need to complete the English and Professional Practice written examinations to meet the licensure requirements.

ACCOMPLISHMENTS

Sunset Review

As a result of the Governor signing AB 3252 on September 25, 2024, the Board’s sunset date was extended to January 1, 2029. The bill included several other significant changes for the Board.

First, beginning January 1, 2025, all court reporters must state their name and license number on the record at the beginning of every proceeding. This change will allow consumers to ensure their record is being created by a California licensed court reporter.

The second change was establishing reciprocity with the skills portion of the National Verbatim Reporters Association’s Certified Verbatim Reporter (CVR) certification. Beginning January 1, 2025, all holders of the CVR do not need to take the skills portion of the California license examination. They will still need to complete the two written portions of the examination before being granted a license to practice. Following this change, the Board issued 100 new licenses as of June 30, 2025. This

COURT REPORTERS BOARD OF CALIFORNIA

is a welcome increase as the Board continues its work to expand the number of court reporters available in the workforce.

The third change was to the passing score required for the skills exam, which mirrors national standards. Beginning January 1, 2025, the passing score is 95%, instead of the previous 97.5%. This reflects the same standard that is used for certification at the national level.

An additional change is allowing the Board to post public email addresses for licensees on its website. As of January 1, 2025, consumers who are trying to contact a court reporter to order a transcript are able to email licensees directly, rather than having to physically mail correspondence. This new option enables faster correspondence between the public and licensees.

Updates to Licensing

In May 2025, the Board reviewed and updated the grading policies and punctuation guidelines for the skills examination. This is an important tool for candidates taking the skills portion of the license examination.

In May 2025, the existing Best Practice Pointers were updated as well as new ones created for topics requested by the industry. Best Practice Pointers are informational tips for licensees on a range of topics specific to the practice of court reporting. Schools use these as discussion points in training for professional practice; licensees use them for reference.

Technological Advancements

In July 2024, the Board moved from the legacy systems to a new system for examination, licensing, and renewals. By moving these processes online, the Board was able to experience significant cost savings. Although paper renewal notices were mailed for one year, the Board was able to save postage and printing costs once renewal was moved completely online. Additionally, staff time used to process physical renewals, including filing, was greatly reduced. The efficiencies gained allowed the Board to redirect staff to more quickly process claims for the Transcript Reimbursement Fund, which helps pay for transcripts for qualified indigent civil litigants.

NEW LEGISLATION

There was no enacted legislation solely related to this Board.

BOARD HIGHLIGHTS

RECIPROCITY

The Dental Board of California does not offer licensure as a dentist through reciprocity. The Board does accept certification from out-of-state dental licenses, in good standing for licensure through the Licensure by Credential application process if additional requirements are met, including:

- A completed application form and payment of all required fees.
- A current license issued by another state to practice dentistry that is not revoked, suspended, or otherwise restricted.
- Proof the applicant has either been in active clinical practice or has been a full-time faculty member in an accredited dental education program and in active clinical practice for a total of at least 5,000 hours in five of the seven consecutive years immediately preceding the date of application.
- The applicant may receive credit for two of the five years of clinical practice by demonstrating completion of a residency training program accredited by the American Dental Association Commission on Dental Accreditation, including but not limited to a general practice residency, an advanced education in general dentistry program, or a training program in a specialty recognized by the American Dental Association.
- The applicant agrees to practice dentistry full-time for two years in at least one primary care clinic pursuant to BPC 1635.5(a)(3)(B), or

- The applicant agrees to teach or practice dentistry full-time for two years in at least one accredited dental education program pursuant to BPC 1635.5(a)(3)(C).
- Proof that the applicant has not failed the examination for licensure to practice dentistry within five years prior to the date of application.
- Documentation of 50 units of continuing education in the last two years, which includes mandatory coursework.

The Board also does not offer licensure as a registered dental assistant through reciprocity. The Board does accept certification from out-of-state dental licensees for Work Experience (OJT), Mixed Education and Work Experience (MEO), and Preceptorship (PRE) Pathways to licensure through the Registered Dental Assistant (RDA) License application process, if additional requirements are met.

ACCOMPLISHMENTS

Communications and Outreach

The Board participated in various dental and consumer outreach events throughout the fiscal year. In October 2024, Board staff attended the Antioch Unified School District College and Career Fair held at Deer Valley High School in Antioch. Board staff provided information on careers in dentistry and state jobs.

In November 2024, Board staff held its Second Annual Licensing University Q&A Presentation. This virtual event provides school administrators with valuable information to provide to their students as they graduate from dental school and begin the application process for licensure. The presentation covers topics such as the acceptability of electronic signatures, the application process, and submitting documents electronically rather than by mail. This annual presentation also shares changes to dental application requirements and prepares California dental school students for the Board’s license application process.

In April 2025, Board staff presented at the annual conference of the California Association of Dental Assisting Teachers (CADAT) and the California Dental Assistants Association (CDAA). Topics included initial licensure application pitfalls and frequent deficiencies, continued license maintenance, continuing education audits, legislative changes resulting from SB 1453 (Ashby, Chapter 483) that pertain to dental auxiliaries.

Regulations

The Board updated the dental assisting exam regulations in accordance with current examination requirements for dental auxiliaries regulated by the Board. The regulations establish a criterion-referenced passing score for dental assisting exams for Orthodontic Assistants (OAs), Dental Sedation Assistants (DSAs), Registered Dental Assistants (RDAs), and Registered Dental Assistants in Extended Functions (RDAEFs), remove references to examinations that have been discontinued and/or superseded by changes in laws and regulations, link the examinations to the examination outlines prepared by the Office of Professional Examination Services, and repeal regulations related to dental hygienist examinations that have been superseded by regulations established by the Dental Hygiene Board of California. These regulations went into effect January 1, 2025.

The Board updated the Uniform Standards for Substance-Abusing Licensees regulations effective January 1, 2025. These regulations amend the existing uniform standards used in addressing substance-abusing licensees and outlines the criteria for issuing a cease practice order, requirements for providing notice to the subject licensee, and the process for appeal.

Updates to Enforcement

Board staff have been working with DCA’s Organizational Improvement Office (OIO) to map 19 enforcement processes. The goal is to make enforcement more efficient by identifying areas needing improvement and to streamline processes. Once recommendations are made, the Board will be implementing the recommendations for efficiency and the Board will be transitioning to a paperless environment.

NEW LEGISLATION

There was no enacted legislation solely related to this Board.

California Code of Regulations, title 16, section 1100–1153

Sunset Review:

Last review: 2023 | Next review: 2027

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 19171, registered dental hygienists who are licensed in good standing in a state other than California for five years or more may achieve “licensure by credential” rather than through examination.

ACCOMPLISHMENTS

Strategic Plan

At its November 16, 2024 Board meeting, the Board reviewed, voted on, and ratified, its new 2024–2028 Strategic Plan. Portions of the plan have already been implemented, with the anticipation of completing all goals by the plan’s end date. The plan was posted to the Board’s website shortly after ratification.

Communications and Outreach

The Board increased its outreach sessions to graduating dental hygiene educational program students to inform them of the licensing process and responsibilities of entering the profession. These educational sessions are offered to all dental hygiene educational programs and allow students to interact with Board staff regarding the application process, licensure requirements, and any issues they may have. The sessions can be conducted in person or online, depending on the program’s choice.

Updates to Licensing

The Board’s Licensing Unit underwent changes that streamlined processes in reviewing and approving applications. As a result, the Board experienced increased

DENTAL HYGIENE BOARD OF CALIFORNIA

productivity and efficiency within the unit, resulting in all applications being processed within a much shorter timeline than allowed by law (90 days).

Updates to Enforcement

The Board’s Enforcement Unit continues to see a large percentage of licensees failing to complete their continuing education (CE) requirements for the license renewal, resulting in citations and fines. The Board is working on efforts to educate and remind licensees of the CE requirements with updated information posted on its website, in email blasts, and in the Board’s newsletter. This information is also shared with the California Dental Hygienists’ Association (CDHA).

The Board conducted eight dental hygiene educational program (DHEP) site visits and identified moderate deficiencies of the law or standards in a few of them. The impacted programs have either corrected the deficiencies or are working with the Board to obtain compliance.

Regulatory Changes

The Board promulgated four regulatory packages: 1) Finalizing mobile dental hygiene clinics for registered dental hygienist in alternative practice (RDHAP) licensees; 2) Defining the steps to register an RDHAP practice; 3) Codifying the faculty to student ratios of 5:1 in clinic within the dental hygiene educational programs; and 4) Clarifying the appeals process and the reinstatement of withdrawn dental hygiene educational programs.

Diversity, Equity, Inclusion, and Accessibility

The Board shows dedication to diversity, equity, inclusion, and accessibility (DEIA) goals and objectives by implementing and advocating for laws, regulations, policies, and procedures that create an environment where everyone feels valued and respected.

Board executives participated in DEIA training facilitated by DCA’s SOLID Training Unit. All Board staff are assigned and encouraged to complete DEIA training to help create a culture of awareness, reduce unconscious bias, and support all individuals.

As part of its commitment to DEIA, the Board uses third-party translation services to assist those who are not fluent in English. In addition, the Board is exploring options with the Office of Professional Examination Services (OPES) and the Professional Service Industries (PSI) to translate the Board’s Law and Ethics Examination into Spanish.

NEW LEGISLATION

There was no enacted legislation solely related to this Board.

BUREAU OF HOUSEHOLD GOODS AND SERVICES

Registers and regulates electronic and appliance repair businesses and has jurisdiction over the sale and administration of service contracts on various consumer products. Licenses and regulates the manufacture and sale (retail, wholesale, and import) of upholstered furniture and bedding, supply dealers, custom upholsterers, bedding sanitizers, and the manufacture of thermal insulation products, and tests for flammability and sanitization. Permits and regulates the transport of household goods and personal effects by household movers.

Sunset Review:

Last review: 2023 | Next review: 2027

BUREAU HIGHLIGHTS

RECIPROCITY

The Bureau does not have reciprocity.

ACCOMPLISHMENTS

Technological Advancements

In January 2025, the Bureau launched a new online application as part of DCA’s Business Modernization (BizMod) initiative for interstate household movers to comply with the requirements of SB 1451 (Ashby, Chapter 481, Statutes 2024). In September 2024, the transfer application for household movers was made available online, and in February 2025, improvements were made to the online household mover general application. Permit holders can now upload required insurance documents and update their contact information via their online accounts. Additional phases of the Bureau’s BizMod project are expected to be completed in Fiscal Year 2025–26.

Wildfire Recovery

In response to Governor Gavin Newsom’s Executive Order N-15-25 to aid businesses and workers impacted by the January 2025 wildfires in Southern California, Bureau staff called all 28 affected licensees in areas affected by the wildfires to inform them about provisions in the order that benefitted them, including a one-year deferral on renewal payments for licenses that expired between January 1, 2025 and June 30, 2025. In addition, the Bureau distributed outreach materials in English and Spanish at Disaster Recovery Centers, including a new flyer on best practices when hiring a restoration company.

Communications and Outreach

The Bureau produced five new educational videos for consumers and licensees, which were posted on the Bureau’s website and shared across social media and with interested parties. The videos covered topics including tips for hiring movers for moves both within California and in and out of the state; general information about what the Bureau does; and a quarterly webinar for licensees.

The Bureau posted regularly in English and Spanish on Facebook, X, Instagram, and LinkedIn, and saw a 17% increase in its social media following.

The Bureau also participated in 12 consumer-focused outreach events across California to share information with seniors about how to protect themselves from possible scams.

The Bureau released five new publications in both English and Spanish, which were posted on the Bureau’s website, shared across social media, and distributed at outreach events.

Updates to Enforcement

As part of its ongoing Memorandum of Understanding with the Federal Motor Carrier Safety Administration (FMCSA) to address interstate household mover violations, the Bureau issued its first federal citation in November 2024, with a fine of \$37,400.

On November 7, 2024, the Bureau conducted an undercover sting in Ventura County focused on unlicensed movers and as a result referred three cases to the Ventura County District Attorney’s office.

The Bureau initiated a Northern California Task Force, with participation from state, county, and municipal partners, to share information and best practices. The Bureau hosted the first meeting April 17, 2025.

The Bureau began a collections program in October 2024, by sending notices for unpaid citation fines to businesses. Businesses receive three notices allowing them an opportunity to pay the outstanding fines before their debt is referred to collections by the Franchise Tax Board or DCA Collections. As of June 30, 2025, the Bureau has sent 210 collections notices to businesses and referred 32 for collection.

The Bureau helps consumers mediate minor disputes with businesses, as well as takes disciplinary action against movers with serious violations of law. In FY 2024–25, the Bureau’s efforts resulted in over \$397,210 savings to the public.

The Bureau annually conducts “enforcement sweeps” in specific geographic areas designed to decrease unlicensed activity within the electronic and appliance

repair, service contracts, and home furnishings and thermal insulation industries. In FY 2024–25, the Bureau visited 73 businesses during sweeps and issued 61 citations, resulting in \$24,750 in fines.

Diversity, Equity, Inclusion, and Accessibility

In February 2025, the Bureau completed a months-long process, in collaboration with DCA’s SOLID Planning Solutions, to update its 2022–26 Strategic Plan to strengthen its commitment to a “California For All” by embedding equity analysis into its strategic plan objectives.

Regulations

New Household Mover enforcement regulations became effective April 1, 2025. The regulations establish definitions of certain terms, the Bureau’s citation system, and advertising requirements. The regulations also address the substantial relationship and rehabilitation criteria to consider in determining disciplinary action based on a crime, professional misconduct, or act committed by a permit holder.

In May 2025, technical changes to the Home Furnishings and Thermal Insulation regulations became effective. These changes included a reorganization of existing regulations to group similar topics together, making the regulations easier to understand.

NEW LEGISLATION

AB 366 (Petrie-Norris, Chapter 689, Statutes of 2025)

extends the sunset of the ignition interlock device pilot program currently in place, from January 1, 2026, to January 1, 2033.

Sunset Review:

Last review: 2023 | Next review: 2027

BOARD HIGHLIGHTS

RECIPROCITY

The California Medical Practice Act does not allow for license reciprocity between states. Out-of-state applicants who are licensed in another state must apply and meet California licensing requirements before a license can be issued. Business and Professions Code sections 2135 and 2135.5 provide some exceptions when minimum requirements are deficient.

ACCOMPLISHMENTS

Diversity, Equity, Inclusion, and Accessibility

In October 2024, Reji Varghese, Board Executive Director, was elected to be the Chair of the Diversity, Equity, Inclusion, and Accessibility (DEIA) Steering Committee—the primary deliberative body for DEIA initiatives within the Department of Consumer Affairs. Other DEIA accomplishments for Fiscal Year 2024–25 include developing a recruitment campaign for the DEIA Steering Committee, partnering with DCA’s SOLID Training Unit and Office of Human Resources to develop and implement inclusive hiring training, and conducting a DCA-wide workforce engagement survey.

Physician Health and Wellness Program Interested Parties Meeting

In October 2024, the Board held an interested parties meeting to hear feedback from stakeholders, including representatives from various consumer and physician organizations, regarding the Board’s proposed legislation

to establish a physician health and wellness program (PHWP) to prevent patient harm by treating physicians, other Board licensees, and future licensees for health conditions that could impair their ability to practice safely. Following this meeting, the Board approved a legislative proposal at its November 2024 meeting. The proposal is contained within Assembly Bill 408 (Berman), which authorizes the Board to establish a PHWP that will coordinate treatment and monitoring services consistent with national best practices, giving the Board's current and future licensees the help they need to stay healthy and provide the high-quality care that patients deserve. This proposal also includes reporting requirements so that the program and/or Board is alerted to licensees who are unsafe to practice. This allows the Board to pursue enforcement action when appropriate, authorizes program quality and compliance evaluations, and requires public disclosure of various program statistics.

Complainant Liaison Unit Established

As required by Business and Professions Code section 2220.1, the Board established the Complainant Liaison Unit (CLU), which commenced operations in January 2025. The CLU has a total of nine positions and offers complainants, patients, or patient representatives the opportunity to be interviewed in quality-of-care cases. This process helps ensure that the Board obtains any additional information or evidence not previously submitted.

Regulatory Changes

The Board's proposed rulemaking to update its cite and fine provisions was approved by the Office of Administrative Law and took effect on October 1, 2024. This rulemaking clarified the Board's authority to issue citations for various violations of the law and how maximum fine amounts are determined.

Updates to Licensing

In March 2025, the Board updated its processes to eliminate paper license renewal applications for all physician and surgeon licenses that expire on or after June 30, 2025. Renewal applications must now be submitted online. This results in a more streamlined and secure process that reduces both postage costs and paper waste.

The Board launched a Postgraduate Training Program Resources webpage on its mbc.ca.gov website that supports postgraduate training programs throughout the licensing application process. This resource provides programs with clear guidance, including key deadlines, required supporting documents, and practical tools to help ensure the accurate and timely submission of forms.

Effective January 2025, as required by Business and Professions Code section 2097.5, licensees can renew their physician and surgeon licenses for the first time by providing the Board with evidence that they are currently enrolled in a California Board-approved postgraduate training program at the time their license expires. This option provides additional flexibility in the initial license renewal process and applies to licensees who are currently enrolled in a Board-approved postgraduate training program but have not yet met the 36-month postgraduate training requirement. The licensees are required to provide proof they have completed 36 months of postgraduate training by their second renewal.

In July 2024, the Board held an interested parties meeting about the mental and physical health questions on the Board's initial license applications. During this meeting, a task force of Board members and attendees heard from officials from the Federation of State Medical Boards, the North Carolina Medical Board, and the State Medical Board of Ohio. Attendees were able to provide feedback on the Board's current application questions and suggestions for alternative approaches for the Board's consideration.

Then, at its August 2024 meeting, the Board approved an updated introductory statement on its initial license applications that encourages applicants to seek care for their health needs. Furthermore, the Board revised the health questions asked on its initial license applications to focus on current health conditions that impair an applicant's ability to practice safely. The new questions allow applicants to answer "No" if their condition is being appropriately treated and, due to that treatment, does not impair their ability to practice safely. These changes took effect January 2025.

Volunteer Physician Registry Update

On December 6, 2024, a new Volunteer Physician Registry (VPR) web application was launched, and all existing volunteer profiles were migrated from the prior system. VPR is intended to be used by clinics or other entities seeking volunteer physicians. Physicians in the registry have provided information about areas in which they would be willing to volunteer and have provided details regarding their area of practice and foreign language proficiency. Following the release of the new web application, the Board saw an increase in the number of volunteer profiles.

Changes to Board Leadership

Sharlene Smith was appointed Chief of Enforcement, and Kenneth Watson was appointed Deputy Chief of Enforcement.

MEDICAL BOARD OF CALIFORNIA

NEW LEGISLATION

SB 387 (Rubio, Chapter 752, Statutes of 2025) updates the definition of an academic medical center to also include certain comprehensive cancer centers that train a minimum of 25 residents or fellow physicians who are in residencies accredited by the Accreditation Council for Graduate Medical Education. These facilities will be eligible to request that the Board issue a special faculty permit to qualified individuals that authorizes them to provide instruction and practice medicine, as specified, within that facility and any affiliated institution.

BOARD HIGHLIGHTS

RECIPROCITY

Per Business and Professions Code (BPC) section 3633, the Board has reciprocity and may grant a license to an applicant who is licensed and in good standing as a naturopathic doctor in another state, jurisdiction, or territory in the United States. However, the applicant must provide information proving they meet requirements outlined in BPC sections 3630 and 3631 and must provide fingerprints for background checks.

ACCOMPLISHMENTS

Regulatory Changes

In alignment with its mission to protect consumers, the Board made several regulatory changes that were significant for consumers, licensees, and stakeholders. The Board updated its name from Naturopathic Medicine Committee to California Board of Naturopathic Medicine, ensuring consistency across all formal references. Other non-substantive changes were also made to improve clarity and alignment with current statutory language.

In addition, the Board initiated the development of several important regulatory packages:

- Delegation of Functions – to formally define and clarify the authority of the Executive Officer to carry out specific administrative, enforcement, and procedural responsibilities on behalf of the Board. This regulation is intended to streamline operations, support timely case processing, and ensure the efficient administration of the Board’s duties.

- Retired License Status – to provide a pathway for licensees who are no longer practicing to maintain recognition of their professional contributions without maintaining an active license.
- IV and Advanced Injection Therapy (Infection Control Requirements) – to establish clear infection control standards and safety protocols for naturopathic physicians performing IV therapy and advanced injection procedures, thereby enhancing patient safety and reducing the risk of adverse outcomes.

These efforts are designed to strengthen the Board’s ability to operate effectively, support licensees throughout their professional life, and enhance safeguards for the public.

Diversity, Equity, Inclusion, and Accessibility

In October 2024, the Board adopted its new 2025–2030 Strategic Plan, with an updated Mission Statement that now highlights access to safe, high-quality care as a core part of consumer protection. This addition reflects the Board’s recognition that true safety and quality depend on ensuring Californians can obtain the care they need.

The new plan focuses more on diversity, equity, inclusion, and accessibility (DEIA), committing the Board to policies and practices that reduce barriers, expand access in underserved communities, and support a workforce that reflects California’s diversity. Key goals include improving equity in licensing, strengthening outreach to diverse communities, and promoting culturally competent care across the state.

Updates to Licensing

The Board continued advancing its green initiative — a set of efforts to reduce paper use and support sustainability by shifting more licensing services online. Applicants and licensees are now directed to the BreEZe online portal instead of paper forms, making the process faster and more convenient.

The Board also replaced mailed renewal letters with postcard reminders, cutting costs and reducing paper waste. Website enhancements further improved access to services, allowing licensees to renew their licenses, update information, and apply for certifications more easily.

Updates to Enforcement

The Board made several improvements to enhance the effectiveness and efficiency of its Enforcement Program. A key improvement was the hiring of a dedicated analyst to

conduct desk investigations and issue citations for minor infractions and unlicensed activity, allowing the Board to address lower-level violations more efficiently.

The Board also undertook a significant overhaul of its expert witness program to improve the consistency and quality of expert reports, thereby strengthening the overall integrity of enforcement cases. This included refining expectations, enhancing training, and collaborating more closely with expert participants.

Additionally, the Board expanded its collaboration with external agencies to support more comprehensive investigations and coordinated enforcement actions. These enhancements collectively support the Board’s core mission of consumer protection by ensuring timely, fair, and effective enforcement of naturopathic medicine laws and regulations.

Communications and Outreach

In April 2025, Board staff attended the California Naturopathic Doctors Association’s (CDNA) Annual Conference in Berkeley, California. This event is the largest professional gathering of licensed naturopathic doctors in the state and an important venue for outreach, as approximately 20% of the Board’s licensees are members of the CNDA. The Executive Officer presented on the Board’s licensing and enforcement processes, demonstrated online services, and discussed recent legislation authorizing naturopathic doctors to supervise licensed vocational nurses. Participation in the conference also allowed the Board to engage directly with licensees and naturopathic students, providing education on professional standards and regulations that ultimately support safe, high-quality care for California consumers.

The Board also continued its consumer education campaign on X (formerly Twitter) and Facebook, in collaboration with DCA’s Office of Public Affairs, providing information on verifying licensure and the difference between licensed naturopathic doctors and unlicensed practitioners. These efforts have contributed to an 11% decline in complaints related to unlicensed practice, demonstrating the value of proactive public and professional education.

As the Board looks ahead, it remains committed to modernizing its systems, expanding transparency, and ensuring all Californians have access to safe, licensed, and high-quality naturopathic healthcare.

NEW LEGISLATION

There was no enacted legislation solely related to the Board.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Regulations

At its June 2025 meeting, the Board approved a regulatory package to make updates to its continuing competency requirements. Of note, the package would institute a jurisprudence course requirement that would ensure licensees maintain a thorough understanding of California’s laws and regulations related to the profession of occupational therapy.

Communications and Outreach

The Board President and Executive Officer attended and presented at the 2024 Occupational Therapy Association of California’s (OTAC) Annual Conference and Expo in Pasadena, CA. The conference, which is open to both occupational therapy students and licensees, is one of the largest occupational therapy conferences nationwide, and provides the optimal opportunity for the Board to engage directly with its current and future licensee population. Board staff presented on upcoming licensing and regulatory changes. Board staff also participated in the conference expo, which provided students and licensees a chance to learn more about entering the field, receive feedback from peers, and ask questions of Board staff directly.

Updates to Enforcement

The Board has made significant improvements to its Continuing Competency Audit process. Improved communication with licensees and updated language on audit letters have contributed to a decrease in the percentage of those audited who are referred to the enforcement program from 20% to 6%. This change promotes a better understanding of continuing competency requirements among the licensee population and reduces strain on enforcement program resources. These changes allow for more resources to be used for completing investigations while still ensuring compliance with continuing competency requirements.

Compared to the prior fiscal year, the Board closed 1,033 investigations (22% increase), closed 27 AG cases (59% increase), and issued 419 citations (84% increase).

Updates to Licensing

Regulatory changes were approved by the Office of Administrative Law (OAL) in June 2025. The changes decrease the time within which an incomplete application will be considered abandoned and provide additional time for approved applicants to make their initial license payment. The changes also apply to applications submitted online through BreZze. The changes take effect on October 1, 2025.

The Board continues to exceed its targets for application processing times. On average, complete applications for licensure are approved within 26 days, which surpasses the 30-day target. Approximately 87% of closed applications for the fiscal year resulted in licensure.

Strategic Plan

The Board adopted an updated Strategic Plan in March 2025. The new plan updates the Board's values to include Diversity, Equity, Inclusion, and Accessibility (DEIA). Goals that support this value include developing a more diverse pool of subject matter experts, promoting awareness of Board member vacancies to foster a diverse candidate pool, and developing relationships with staff to promote a safe, diverse, and equitable workplace. Licensing goals include improved communication with applicants regarding the licensure process. Enforcement goals include evaluating and updating the Board's subject matter expert program and exploring possible enforcement actions outside of citations, fines, and formal discipline. Outreach goals seek to increase stakeholder engagement, expand the use of social media, and clarify the Board's role as a consumer protection agency to licensees. Regulatory goals establish a continued initiative to review and update regulations to ensure relevancy and

efficacy. Lastly, organizational effectiveness goals aim to increase staff training, review and refine Board processes and procedures, and promote awareness of Board vacancies to attract qualified applicants.

Board Leadership

At its November 2024 meeting, the Board elected member Beata Morcos as Board President and member Christine Wietlisbach as Board Vice President. The Board's previous Executive Officer, Heather Martin, retired in December 2024. Austin Porter was appointed Executive Officer in June 2025.

NEW LEGISLATION

There was no enacted legislation solely related to the Board.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Sunset Review

The Board prepared its Sunset Review Report and delivered it to the Legislature in early January 2025, in advance of its sunset review hearing, which was held on March 4, 2025. Board President Jeffrey Garcia, O.D., and Executive Officer Gregory Pruden appeared before a joint session of the Assembly and Senate Business and Professions Committees and gave testimony in support of the Sunset Review Report.

Senator Ashby drafted reauthorization legislation for the Board, Senate Bill 776 (Ashby, 2025). The bill extended the authority for the Board to continue until January 1, 2030, and incorporated the following Board recommendations:

- Requiring applicants and licensees to provide the Board with an email address if they have one.
- Streamlining mobile optometric office reporting requirements, strengthening continuity of care, and removing the cap on number of offices.
- Granting the Board the authority to issue a probationary registration to an opticianry applicant, consistent with the authority to issue a probationary license to an optometrist.
- Strengthening optical company registration requirements.

Updates to Licensing

The Board fully implemented the Mobile Optometric Office Program and the Home Residence Permit Program by releasing initial and renewal applications on BreEZe, the Board’s online licensing platform. These important programs increase access to care by bringing optometric care directly into the community and to the homebound. The Board also created informational web pages for these programs, which can be accessed by clicking these links: Mobile Optometric Office Program and Home Residence Permit Program.

Continuing the progress achieved in Fiscal Year 2023–24, which saw the processing time for every application type improve over the prior year, the Board achieved the same result in Fiscal Year 2024–25. For most application types, the Board can process and issue a license within one (1) week for completed applications.

The Board updated its renewal notices to include QR codes, which provide access to the Board’s ListServ, Facebook, LinkedIn, and X accounts, increasing awareness of the Board’s communication efforts among licensees.

Updates to Enforcement

Continuing its focus on unlicensed activity enforcement, the Board began utilizing the telephone disconnect authority via Business and Professions Code section 149. To better protect the public, the Board has exercised this authority when it has identified a phone number associated with an individual practicing without a license.

Leadership in the Optometric Profession

The Board worked to ensure California’s priorities, interests, and perspectives were represented at the national level. During the annual meeting of the Association of Regulatory Boards of Optometry (ARBO), held in Minneapolis, Minnesota, in June 2025, former Board President and current Board Member Lillian Wang, O.D., was elected to the ARBO Board of Directors. Dr. Wang’s election will help ensure California has a voice within ARBO, the organization that represents and assists member licensing boards in regulating the practice of optometry for the public welfare.

NEW LEGISLATION

SB 776 (Ashby, Chapter 788, Statutes of 2025) is the sunset bill for the Board. This bill extends the sunset date for the Board to January 1, 2030, and makes other statutory changes in response to issues raised in the sunset review process, including eliminating ambiguities related to the registration of ophthalmic lens dispensers, removing the limit placed on the number of mobile optometric care units a provider can operate, reducing the number of members

of the Dispensing Optician Committee, raising the statutory caps on some fees, and requiring licensees to provide a valid email address to the Board if they have one.

BOARD HIGHLIGHTS

RECIPROCITY

Per Business and Professions Code section 2153.5, the Board accepts licensees from any state that requires applicants to pass the Comprehensive Osteopathic Medical Licensing Examination (COMLEX) levels 1, 2, and 3 as its written examination for licensure. Licensure based on other state written examinations may be considered for approval and acceptance by the Board on a case-by-case basis.

ACCOMPLISHMENTS

Organizational Structure

In February 2025, the Board merged its administrative services program with its licensing program. This restructure streamlines processes across these units and increases the ability to cross-train and reassign staff as workloads change and priorities shift.

Updates to Enforcement

The Board established a new enforcement manager position to oversee enforcement staff and workload. On July 1, 2025, the Board promoted Cristy Livramento to the position of staff services manager. In addition to overseeing all operations of the enforcement program, the new manager will handle all communications from the public regarding the complaint review and enforcement process, work with the Department of Consumer Affairs' (DCA's) communication team to enhance enforcement outreach efforts, conduct outreach engagements to support public outreach activities and improve the public's understanding of the Board's enforcement process, create PowerPoint presentations specific to the Board's enforcement process,

OSTEOPATHIC MEDICAL BOARD OF CALIFORNIA

maintain the Board’s enforcement tab on the Board’s website, publish all enforcement actions taken, and assist with the Board’s newsletter as well as interviews involving complaints that allege gross negligence and/or incompetent care.

Communications and Outreach

The Board’s third edition of its newsletter, OsteoScope, was published in the spring of 2025. This interactive communication tool is designed to keep applicants, licensees, and consumers informed by sharing updates and relevant Board-related information.

From February 27 to March 2, 2025, Board staff attended the Osteopathic Physicians and Surgeons of California (OPSC) 65th Annual Convention held in Newport Beach, California, which had over 200 licensees in attendance. Board staff hosted a table throughout the conference, answered licensing and enforcement-related questions, and provided a Board update for all attendees. Such events keep licensees informed of changes to the Board’s applications, policies, and regulations. Board President Denise Pines and Vice President Hemesh Patel, D.O., attended the conference with Board staff and interacted with OPSC leadership and members.

From April 24 to April 26, 2025, the Board’s Executive Director, Erika Calderon, attended the Federation of State Medical Boards (FSMB) Annual Meeting hosted in Seattle, Washington, along with President Pines and Vice President Dr. Patel. Director Calderon was able to attend several presentations from Thursday through Saturday, attended the Executive Directors’ forum, and was able to collaborate with her peers nationwide and discuss licensing and enforcement matters relevant to all boards.

On April 25, 2025, Director Calderon attended the American Society of Osteopathic Medical Regulators (ASOMR) Annual Meeting and was able to hear an update from the National Board of Osteopathic Medical Examiners (NBOME) and the American Osteopathic Association (AOA). The Board, among other state licensing boards, received special recognition from Stephanie Simmons, M.D., the Chief Medical Officer with the Dr. Lorna Breen Heroes Foundation.

On May 3, 2025, Board staff attended the fourth Annual Latina Maternal Health Fair, which was hosted at California State University, Bakersfield. They helped answer questions from consumers and hosted a table

with informational material about the consumer complaint process in both English and Spanish.

NEW LEGISLATION

AB 460 (Chen, Chapter 435, Statutes of 2025) allows radiologic technologists to be supervised remotely by a physician, if the physician is available immediately via audio and video communication with access to the patient’s medical imaging records and has the ability to intervene by directing other onsite personnel. Health facilities will need to have safety protocols and personnel onsite who have the appropriate license to respond to adverse events at the physician’s direction.

California Code of Regulations, title 16, section 1700 et seq.

Sunset Review:

Last review: 2025 | Next review: 2029

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Regulatory Changes

The Board adopted six regulations to protect consumers, including regulations specific to the training of pharmacists-in-charge and compounding of nonsterile, sterile, hazardous, and radiopharmaceutical drug products.

Sunset Review

The Board submitted its Sunset Review Report on January 6, 2025. The report included several statutory proposals. Many of the policy proposals from this report are included in the Board’s sunset legislation, Assembly Bill 1503 (Berman). On March 11, 2025, the Board President, a Board Licensee Member, and the Executive Officer participated in a joint hearing of the Senate Business, Professions, and Economic Development Committee and the Assembly Business and Professions Committee.

Business and Professions Code (BPC) section 4427.8 requires the Board to report on the regulation of automated drug delivery system (ADDs) units as part of the Board’s sunset evaluation process. This report was submitted to the Legislature as part of the Sunset Review Report.

Consumer Protection

California Code of Regulations, title 16, section 1709.1 requires a pharmacist-in-charge (PIC) to complete the Board-provided training course prior to approval and appointment as a PIC. The Board developed and released

a new training program for pharmacists interested in serving as a pharmacist-in-charge.

The Board also implemented a new learning management system, PharmEd, for licensees to complete Board-provided continuing education (CE). The system allows pharmacists to take webinar trainings, track progress, and receive certificates. It is a user-friendly webpage that provides links for trainings in law and ethics, furnishing HIV preexposure and postexposure prophylaxis, and furnishing naloxone.

Business and Professions Code (BPC) section 4113.1 requires a community pharmacy to report medication errors either directly or through a designated third party. The Board secured a contract with the Institute for Safe Medication Practices (ISMP) to establish the California Medication Error Reporting (CAMER) program.

Communications and Outreach

The Board utilized its subscriber alert system to notify licensees of drug recalls, withdraws, and other warnings from drug manufacturers, licensed sterile compounding pharmacies, and the U.S. Food and Drug Administration (FDA). The Board sent 252 such notices in the last fiscal year.

The Board's newsletter, *The Script*, published issues in December 2024 and May 2025. The newsletters provided licensees and consumers with important information and updates about the practice of pharmacy within California.

Board staff produced a campaign and educational materials on opioid safety, online pharmacies, and contraception for National Drug and Alcohol Facts Week 2025. Additionally, staff created an education campaign to remind patients that pharmacists are healthcare providers who can assist with medication review and help prevent medication errors for National Medication Safety Week 2025.

The Board developed and released a fact sheet on steps a consumer should consider taking if their pharmacy is closing. The information was translated into several languages, including Spanish, Traditional and Simplified Chinese, Korean, Tagalog, and Vietnamese.

The Board included a new pharmacy locator on its website.

The Board released a policy statement educating consumers about the potential risks to patients receiving intravenous hydration (IV) in unlicensed clinics and other locations.

In response to the Palisades and Eaton fires in Los Angeles County, the Board amplified its communication on various platforms. Licensees and consumers were notified of emergency protocols and consumer support programs through subscriber alerts, social media, and the Board's website.

Updates to Licensing

The Board's Licensing Committee continued its comprehensive review of the authorized duties of a pharmacy technician. The Committee received several presentations from inpatient facilities, conducted a survey of technicians, and began evaluating potential changes for technician responsibilities.

Diversity, Equity, Inclusion, and Accessibility

The Board continues to transition to gender-neutral language when amending provisions of pharmacy law and its regulations. Board staff have also undertaken training courses including courses addressing unconscious bias and Diversity, Equity, Inclusion, and Accessibility (DEIA).

Additionally, pharmacies are required to post the Notice to Consumer poster that lists consumer rights and includes a QR code to access the messaging in 16 additional languages other than English, including: Arabic, Armenian, Traditional and Simplified Chinese, Farsi, Hindi, Hmong, Japanese, Khmer, Korean, Punjabi, Russian, Spanish, Tagalog, Thai, and Vietnamese.

NEW LEGISLATION

AB 50 (Bonta, Chapter 135, Statutes of 2025) allows pharmacists to furnish over-the-counter hormonal contraceptives without following the standardized protocols and procedures of the Pharmacy Law. This bill specifies that pharmacists are only required to comply with these standardized protocols and procedures when furnishing contraceptives requiring a prescription. This bill also authorizes a pharmacist to furnish a 12-month supply of an over-the-counter contraceptive at one time, upon the patient's request, and makes other technical, conforming changes.

AB 309 (Zbur, Chapter 685, Statutes of 2025) removes the sunset dates for existing provisions permitting a physician or pharmacist to furnish hypodermic needles or syringes without a prescription to a person 18 years of age or older and requiring pharmacies that furnish non-prescription hypodermic needles or syringes to provide written information or verbal counseling to consumers at the time the needle or syringe is provided.

CALIFORNIA STATE BOARD OF PHARMACY

AB 1503 (Berman, Chapter 196, Statutes of 2025) is the sunset bill for the Board. This bill extends the sunset date for the Board to January 1, 2030, and transitions some aspects of pharmacy practice to a standard of care approach. This bill makes changes to the pharmacist to pharmacy technician ratio, specifies parameters for pharmacy technicians compounding drugs outside of a pharmacy, and requires the Board to establish a Pharmacy Technician Advisory Committee. This bill also requires the Board to waive fees for new pharmacies in medically underserved areas and establish greater regulatory oversight and requirements for nonresident pharmacies. Additionally, this bill makes other statutory changes in response to issues raised in the sunset review process.

Business and Professions Code section 2600–2696
California Code of Regulations, title 16, section 1398–1399.99.4

Sunset Review:

Last review: 2022 | Next review: 2026

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code (BPC) section 2636.5, applicants for licensure as a physical therapist or physical therapist assistant who are licensed as such in another U.S. state, district, or territory, approved by the Board, may become licensed without a physical therapy or physical therapist assistant written examination if they meet all the requirements, including those licensing requirements prescribed by the Board. However, these individuals must successfully pass the California Law Examination prior to becoming licensed. Reciprocity applicants who are graduates of an approved education program or substantiated as a graduate of an approved education program and who have filed a complete application for licensure with the Board may be awarded “license applicant” status by the Board. A physical therapist or physical therapy assistant applicant shall practice under the direct supervision of a licensed physical therapist as a “license applicant.”

ACCOMPLISHMENTS

CAL-JAM Launch

PTBC, in collaboration with its exam vendor, the Federation of State Boards of Physical Therapy (FSBPT), launched the California Jurisprudence Assessment Module (CAL-JAM), which officially replaced the California Law Exam on July 1, 2024. This online, on-demand jurisprudence tool enhances accessibility and learning for both applicants and licensees. The CAL-JAM is designed to not only assess understanding of California laws and

PHYSICAL THERAPY BOARD OF CALIFORNIA

regulations governing the practice of physical therapy but also serve as a valuable educational resource.

For both applicants and licensees, the exam is easily accessible online, allowing them to fulfill PTBC requirements at their convenience. Applicants are able to demonstrate minimum competency of the laws and regulations to obtain a license, and licensees fulfill their two-hour ethics, laws, and regulations continuing competency requirement for license renewal. There is no additional cost for the convenience; the CAL-JAM fee is nearly half the cost of the previous Cal Law Exam. Moreover, law and regulation information feedback is provided when a question is answered incorrectly the first time. This provides an opportunity for applicants and licensees to be educated as well as tested on the laws and regulations.

Updates to Enforcement

PTBC, in collaboration with the Attorney General’s (AG) Office, provided investigator and continued expert consultant training programs in August and September of 2024. The investigator training was held via Webex, and attendees included investigators and supervisors from the DCA Division of Investigation (DOI) as well as PTBC enforcement staff. In addition to this live session, DOI investigators and supervisors were provided sample case materials for reference. This training facilitates understanding of PTBC-specific evidentiary and procedural requirements, as well as best practices for investigating PTBC cases.

PTBC’s expert consultant training was also held via Webex, and attendees included new and existing expert consultants as well as PTBC Enforcement staff seeking to gain or refresh their knowledge and understanding of program requirements. Expert consultants assist PTBC’s Enforcement Unit staff with review of complaint investigation cases by evaluating whether or the not standard of practice is met by physical therapists and physical therapist assistants. Expert consultants are asked to perform various services, including reviewing patient records, assisting the DOI with investigations and site visits, providing written reports, and working with the AG’s Office as witnesses and subject matter experts in disciplinary proceedings.

As part of its 2024–2029 Strategic Plan, PTBC is ensuring these trainings are current, relevant, and consistently held with increased frequency.

Communications and Outreach

PTBC deepened its commitment to consumer protection by expanding outreach to licensees and the public. In

alignment with the newly adopted 2024–2028 Strategic Plan, the Board enhanced its communication efforts to promote transparency, accessibility, and trust across California’s physical therapy community.

PTBC hosted virtual town halls, participated in career fairs, delivered presentations to students, and distributed tailored educational materials to provide timely guidance on licensure requirements, ethical practice, and emerging regulatory developments. These initiatives directly advanced strategic goals identified in PTBC’s strategic plan, enhancing communication and strengthening stakeholder relationships by fostering inclusive spaces for dialogue, education, and early engagement.

These efforts reflect the Board’s strategic vision to equip licensees and consumers with the knowledge needed to navigate an evolving healthcare landscape, ensuring informed practice and safeguarding the public through education, transparency, and collaborative governance.

NEW LEGISLATION

There was no enacted legislation solely related to the Board.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Sunset Review

During its 2025 Sunset Review process, the Board participated in a public hearing held on March 24, 2025, before a joint session of the Senate Committee on Business, Professions, and Economic Development and the Assembly Committee on Business and Professions. Representing the Board at the hearing were Board President Vasco Deon Kidd, Executive Officer Rozana Khan, and Assistant Executive Officer Kristy Voong. The Board’s testimony highlighted key improvements made since the last review, including streamlined enforcement processes through the establishment of a Special investigator (SI) position, faster complaint handling with an average of just seven days from receipt to investigator assignment, and more than half of the cases resolved within 180 days. The Board also increased stakeholder engagement by conducting in-person outreach events, enhancing its presence on social media, and creating licensing guidance videos to better inform applicants and licensees. In addition, the Board continued progress toward modernizing its licensing systems by enabling electronic submission of National Practitioner Data Bank reports, accepting online requests and payments for license verifications, and offering licensees the ability to print pocket licenses. All reduced reliance on paper, streamlined workflows, and improved service delivery.

The Board's sunset bill, AB 1501 (Berman), reflects a collaborative and thorough review process between the Board, the Legislature, and stakeholders. This bill incorporates all the amendments the Board proposed in its sunset review report. Two additional provisions—introduced by the Legislature—include increasing the physician-to-physician assistant (PA) supervision ratio from four physicians per PA to eight physicians per PA and the addition of a comprehensive review of practice agreement structures.

Strategic Plan

The Board continued to make strong progress toward the goals outlined in its 2024–2028 Strategic Plan. These goals focus on five key areas: licensing, enforcement, communication and outreach, policy and legislation, and overall administration—with an emphasis on diversity, equity, inclusion, and accessibility (DEIA) woven throughout. Across all areas, the Board continues to integrate DEIA principles into its work, including targeted outreach to underrepresented communities and a commitment to equitable access to the profession. Together, these efforts reflect the Board's commitment to meeting its mission: protecting the public and supporting the evolving needs of physician assistants in California.

To improve the licensing process, the Board cross-trained staff and refined internal workflows to keep application processing times on track, even during periods of high volume. The Board also expanded outreach to applicants by offering clearer guidance on licensure steps, including the release of a tutorial video designed to reduce confusion and delays.

On the enforcement side, the Board created a non-sworn Special Investigator (SI) position in early 2024 to handle less-complex complaints in-house. This change has helped improve efficiency by allowing the Health Quality Investigation Unit (HQIU) to focus on more serious cases, while increasing the Board's ability to resolve other matters more quickly.

Outreach and communication remain a priority. The Board expanded its online presence, participated in student career events, and published newsletters to keep licensees informed about changes in law and Board activities. These efforts are designed to strengthen transparency, improve stakeholder engagement, and promote awareness of the physician assistant profession.

Communications and Outreach

Board staff participated in the California Academy of Physician Associates (CAPA) annual conference during Physician Assistant Week, October 3–6, 2024, in Burbank. This event, attended by general medicine and specialty physician assistants, featured clinical lectures and

hands-on workshops, offering up to 48 Category 1 continuing education (CE) credits. The conference also served as a valuable opportunity for in-person outreach, allowing Board staff to engage directly with licensees and students, answer questions, and provide updates on current laws and regulations governing physician assistant practice.

On October 22, 2024, Board staff participated in the College and Career Fair hosted by the Antioch Unified School District at Deer Valley High School in Antioch. The event drew students from three local high schools as well as students from local junior high schools and continuation schools. More than 50 representatives from colleges, trade schools, various career fields, and student support services were in attendance to provide guidance on educational and career opportunities. The Board used this opportunity to engage with students interested in healthcare careers, raise awareness about the physician assistant profession, and share information about the education and licensing process. Early outreach efforts like this help cultivate a future pipeline of informed, motivated healthcare professionals.

On April 29, 2025, Board staff participated in the 2025 Kaiser Northern California PA Symposium, delivering a virtual presentation focused on the Board's enforcement process. The presentation provided an overview of the complaint intake, investigation, and disciplinary procedures, helping attendees better understand how the Board upholds its public protection mandate. The event brought together practicing PAs from across the Kaiser system to discuss clinical practice, professional responsibilities, and regulatory expectations. Board staff also addressed common enforcement trends and clarified licensee obligations when under investigation. Engaging with licensees in this setting supports transparency and fosters a stronger understanding of the Board's role in maintaining professional standards.

NEW LEGISLATION

AB 1501 (Berman, Chapter 194, Statutes of 2025) is the sunset bill for the Physician Assistant Board and the Podiatric Medical Board, which extends their sunset dates until January 1, 2030. This bill raises several fees, including licensing fees, for both Boards. It expands on the number of physician assistants that can be supervised by a physician and expresses the Legislature's intent to review how practice agreements are utilized in other states, evaluating their potential benefits or detriments to patient care, workforce efficiency, and regulatory oversight. The bill also makes several other technical changes identified in the Board's sunset review.

Sunset Review:

Last review: 2025 | Next review: 2029

BOARD HIGHLIGHTS

RECIPROCITY

Per Business and Professions Code section 2488, an applicant may be eligible for licensure in California if they are licensed as a doctor of podiatric medicine in any other state and meet the following requirements:

- Satisfactorily complete at least one year of postgraduate training.
- Submit fingerprints and obtain criminal record clearance from the California Department of Justice and the FBI (applicants outside of California may opt to obtain clearances utilizing Live Scan).
- Provide verification of a license in good standing from any podiatric licensing authority in which a license has been held.
- Request a disciplinary databank report from the Federation of Podiatric Medicine be sent directly to the Board.

ACCOMPLISHMENTS

Sunset Review

The Board provided its Sunset Review Report to the Legislature on January 1, 2025. The Board President and Executive Officer participated in a joint session of the Senate Business, Professions, and Economic Development Committee and the Assembly Business and Professions Committee on March 24, 2025. The discussion included recent increases in the Board’s expenses and the

mandate for the Board to maintain a reasonable amount in its fund condition. Doctors of Podiatric Medicine (DPMs) currently practicing in California are now able to refer to the practice of podiatric medicine with the terms “doctor of podiatric medicine,” “doctor of podiatry,” “podiatric doctor,” “DPM,” “podiatrist,” and “foot specialist.” DPMs are also able to include the title “podiatric surgeon.” This change was implemented during the Board’s Sunset Review, as it reflects the current practice of podiatric medicine in California.

PMBC worked with the California Podiatric Medical Association and various stakeholders to finalize a new policy that requires healthcare institutions, benefit plans, and other entities to recognize DPMs as primary providers and not just support or ancillary healthcare providers. This policy will help DPMs continue to provide podiatric treatment pursuant to Business and Professions Code (BPC) section 2472.

Strategic Plan

PMBC responded to Governor Newsom’s Executive Order (N-16-22) requiring that all boards and bureaus work toward the goals of Diversity, Equity, Inclusion, and Accessibility (DEIA) with a robust effort that successfully resulted in extensive discussions among Board members and staff with input from stakeholders to update its current Strategic Plan. The Board is expected to adopt the updated Strategic Plan at a future board meeting.

Updates to Licensing

PMBC will no longer require out-of-state licensed DPMs that took the AMPLE Part III national exam over 10 years ago to retake the exam when applying for a DPM license in California. This will allow DPMs in good standing with podiatric medical boards from other states to become licensed in California without imposing unnecessary burdens.

Updates to Enforcement

PMBC’s Enforcement staff created and prepared materials for podiatric experts and consultants with updated policies and procedures to increase efficiencies and enhance the review process.

Communications and Outreach

Outreach efforts have continued to expand through the PMBC newsletter, website, social media accounts, and PMBC listserv, which continue to provide valuable and timely information for licensees and stakeholders. Efforts to update and improve social media participation have been successful this year. PMBC has received more inquiries and communications regarding podiatric medicine in California.

During the 2025 Los Angeles fires, PMBC was able to provide timely and valuable information and resources to licensees and stakeholders. Through direct communication with licensees, PMBC staff were able to provide assistance regarding delayed compliance with renewal requirements to licensees in need.

NEW LEGISLATION

AB 1501 (Berman, Chapter 194, Statutes of 2025) is the sunset bill for the Physician Assistant Board and the Podiatric Medical Board, which extends their sunset dates until January 1, 2030. This bill raises several fees, including licensing fees, for both Boards. The bill also makes several other changes, including adding title protections for podiatric surgeons, eliminating the requirement that applicants to the Podiatric Board licensed in other states have passed the licensing examination within the past ten years, and other changes identified in the Board’s sunset report.

BUREAU FOR PRIVATE POST-SECONDARY EDUCATION

BUREAU HIGHLIGHTS

RECIPROCITY

The Bureau does not have reciprocity.

ACCOMPLISHMENTS

Technological Advancements

In June 2025, the Bureau transitioned from its longtime system of record to a new system designed to better meet the current needs of institutions, students, and staff. The new system, Connect, allows electronic billing and payments for all amounts owed by institutions approved to operate by or registered with the Bureau, as well as the submission of online applications for approval to operate new institutions or in new locations and make changes to existing approvals. Additionally, institutions will be able to review key institutional data online, supporting their ability to validate and amend Bureau records regarding institutional locations, ownership structures, and program offerings.

Consumer Protection

The Bureau is tasked with ensuring the compliance of private postsecondary educational institutions with established minimum operating standards, including issuing citations to those operating without required approval. Institutions operating without required approval pose a particular risk to consumers because their institutional operations have not been reviewed for sufficiency and because students at unapproved institutions do not have access to Bureau-administered resources like the Student Tuition Recovery Fund if they are harmed.

Oversees and regulates private postsecondary educational institutions located in California.

Last review: 2022 | Next review: 2026

BUREAU FOR PRIVATE POSTSECONDARY EDUCATION

In Fiscal Year 2024-25, Bureau investigators made a concerted effort to investigate and address unapproved activity in California, issuing 50 citations to institutions operating without approval. This single-year figure is equivalent to the number of unapproved-activity citations issued in the prior three fiscal years combined. The goal of these citations is for unapproved institutions to cease operating without approval or to apply for and obtain approval to operate.

Regulatory Changes

In January 2025, new regulations pertaining to institutional closure went into effect. The new rules add specificity to the information that must be provided to the Bureau when an institution or institutional location is closing, including ensuring that the Bureau is provided with sufficient information to support impacted students and monitor compliance with closure rules. Additionally, the new regulations establish a process for the Bureau to determine an institutional closure date in cases where one has not been provided. To further support institutions through this process, the Bureau developed a School Closure Plan form to mirror closure requirements and facilitate compliant closures. It also revamped its website content to outline closure requirements and considerations.

NEW LEGISLATION

AB 123 (Committee on Budget, Chapter 9, Statutes of 2025) is a budget bill that, among other things, allows the Bureau to use Student Tuition Recovery Fund (STRF) to cover the costs of both STRF claim administration and positions within the Office of Student Assistance and Relief.

OFFICE OF STUDENT ASSISTANCE AND RELIEF

(An office within the Bureau for Private Postsecondary Education)

Provides students with information on their rights when attending a private college, filing a school complaint, resources available including potential reimbursement from the Student Tuition Recovery Fund (STRF), and how to access state and federal relief programs.

www.osar.bppe.ca.gov

Office Leadership:

Yan Cao

Chief, Office of Student Assistance and Relief

yan.cao@dca.ca.gov

OFFICE HIGHLIGHTS

ACCOMPLISHMENTS

Communications and Outreach

Over the last fiscal year, the Office of Student Assistance and Relief (OSAR) served an estimated 7,024 California students. OSAR coordinated 27 email and phone outreach campaigns and led five workshops for students who attended schools that were approved by the Bureau for Private Postsecondary Education (BPPE) and then subsequently closed or discontinued educational programs. Through these workshops and other outreach efforts, OSAR connected with students to inform them of their rights and OSAR's services. For example, OSAR assisted 316 students in obtaining their school transcripts. There were also approximately 293 new Student Tuition Recovery Fund (STRF) claims filed with BPPE this year. OSAR continued to work closely with BPPE's STRF Unit to help ensure students' claims were filed completely, timely, and accurately.

To assist prospective students with making informed choices related to postsecondary education opportunities, OSAR provided outreach at 24 events throughout the state or virtually on the following topics: an overview of OSAR's free services, making an informed decision in selecting a college, how to pay for college, how to strategically research educational programs, and how to best utilize military education benefits. OSAR also participated in 12 California Department of Veterans Affairs' civilian transition outreach events for servicemembers on military installations throughout the state.

Important Meetings

OSAR continues to play a leading role in the postsecondary education landscape in California, in part by convening and leading OSAR outreach partners' roundtables in Fiscal Year 2024–25 with the California Department of Veterans Affairs, the Department of Financial Protection and Innovation, the California Community Colleges Chancellor's Office, and the California Student Aid Commission. These roundtables allow participating organizations to work collectively to ensure the respective agencies are providing the best possible outreach services and meaningful information to prospective, current, and past students of postsecondary institutions throughout California.

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code sections 6759 and 8748, an engineer or land surveyor licensed in another state or country may apply for licensure in California by comity. Comity applicants must submit a complete application including work descriptions, references that can verify the work experience, college transcripts (optional), and verification of successful examination in another state.

California accepts results of the National Council of Examiners for Engineering and Surveying (NCEES) exams for the practice act branches of civil, electrical, and mechanical engineering, the title act engineering branches, except for traffic, for which there is no national NCEES examination, and the NCEES Principles of Surveying examination for land surveying. Civil engineering applicants must also pass the California Seismic Principles and Engineering Surveying exams, which are both mandated by statute. Land surveying applicants must pass the California Professional Land Surveying examination, as required by statute. In addition, all comity applicants must take and pass the California Laws and Board Rules examination. If the home state has waived the Fundamentals of Engineering or Fundamentals of Surveying examination, the application is evaluated to see if the home state’s waiver matches California’s waiver requirements; if not, the applicant must pass the respective fundamentals examination or have 14–17 years of experience in addition to a degree in engineering or surveying, respectively.

Pursuant to Business and Professions Code section 7847, the Board may accept out-of-state or foreign registration

as qualification to license an applicant as a geologist or geophysicist so long as the applicant’s qualifications meet the requirements to become a professional geologist or geophysicist in California, including meeting the qualifying requirements for education, experience, and examinations.

ACCOMPLISHMENTS

Communications and Outreach

The Board’s Executive Officer and Senior Registrars participated in several outreach events where Board staff discussed statutory and regulatory responsibilities of licensees with agencies and professional organizations. They also provided licensing information to several hundred students enrolled in engineering, land surveying, and geology programs throughout California, meeting with colleges and participating in professional organization events aimed at pathway to licensure.

A complete listing of events and participants can be reviewed in the Board’s bulletins, which are published regularly here: www.bpelsg.ca.gov/pubs/bulletins.shtml

Updates to Licensing and Examination

The Board made significant progress in reducing application processing times, particularly for Professional Engineer applications. By the end of the fiscal year, the Board was completing the technical review of professional engineer applications at a faster rate than it was receiving applications. An additional analyst added to the Licensing Unit was helpful in setting new goals for the initial review process, shortening this period of review to thirty days.

Board staff also initiated an internal evaluation with its examination vendor, focusing on ways to implement improved communication protocols between the examinees, the Board, and its vendors when unforeseen circumstances impact exam scheduling.

Collaboration with Other Agencies

After the Eaton and Palisades fires, the Board’s Executive Officer worked with DCA leadership to communicate the Board’s offer of assistance to state and local agencies responsible for overseeing the site cleanup, recovery, and rebuilding efforts, in order to ensure compliance with laws and regulations related to professional engineering, land surveying, and geology, and thus ensure that public safety measures were effectively implemented. The Board, along with the Contractors State License Board, participated in the production of a video of a roundtable discussion about how consumers can protect themselves as they navigate the recovery process after a disaster.

Beginning in Spring 2025, Board staff engaged in a joint

compliance collaboration with the California Department of Transportation (Caltrans) to ensure that Caltrans project-related publications, policies, and processes are consistent with the responsible charge provisions of the Board’s licensing laws.

Board staff also presented to the Caltrans Division of Engineering Services, discussing qualifying experience and the application process, as part of the Board’s ongoing participation in outreach opportunities for Caltrans Districts, which is focused on helping Caltrans prepare its employees for success during the application and examination process.

Updates to Enforcement

There was a significant increase in the number of enforcement cases, with 47 more cases opened in Fiscal Year 2024–25 compared to Fiscal Year 2023–24. This appears to be due, in part, to the implementation of an online-based complaint portal, providing easier access for public participation. There was also a 53% increase in the issuance of administrative citations for unlicensed activity, with 53 citations issued in Fiscal Year 2024–25 compared to 25 in Fiscal Year 2023–24. Despite this increased burden on staff workload, the Enforcement Unit reduced its average investigation timeframe by 36 days while maintaining the quality of investigations.

Diversity, Equity, Inclusion, and Accessibility (DEIA)

At the request of the NCEES, Board staff assisted in outreach to the National Society of Black Engineers (NSBE), presenting on various licensing examinations and requirements at the first Annual NSBE Certification Summit held at the University of Southern California (USC) in June 2025. This provided valuable information regarding licensing in order to promote diversity in licensing efforts.

NEW LEGISLATION

AB 671 (Wicks, Chapter 470, Statutes of 2025) defines a “qualified professional certifier,” as an engineer licensed by the Board who has five years of experience in commercial building design and carries specified professional liability insurance. This bill allows qualified professional certifiers to certify compliance with building standards for a tenant improvement for restaurants. This bill also allows the Board to take disciplinary action against a licensee who falsifies building plan certifications. Additionally, this bill makes qualified professional certifiers liable for any damages arising from negligent plan review and allows cities and counties to adopt additional requirements for qualified professional certifiers, including training, fees, and penalties.

BUREAU HIGHLIGHTS

RECIPROCITY

The Bureau does not have reciprocity.

ACCOMPLISHMENTS

Communications and Outreach

On July 12, 2024, PFB published a newsletter to inform stakeholders of PFB activities, including licensing form updates and new statutory and regulatory requirements. PFB also updated its brochures to provide consumers with updated information about what professional fiduciaries do and what questions to ask a professional fiduciary, thereby providing consumers with key information for making an informed decision when hiring a professional fiduciary.

PFB's Program Manager attended the California for All Ages and Disabilities Day of Action event on October 8, 2024, at the SAFE Credit Union Convention Center in Sacramento. The Program Manager disseminated PFB brochures at the event. This event provided an opportunity for advocates and service providers to discuss paths for assisting the elderly and persons with disabilities. In addition to disseminating information about itself, PFB was able to network with service providers, learn more about services already in place, and enhance protection for vulnerable populations.

PROFESSIONAL FIDUCIARIES BUREAU

In October 2024, in response to consumer requests for assistance navigating the license verification tool, PFB updated its website to include step-by-step guidance for consumers seeking license status and disciplinary information. PFB has since noticed a decrease (approximately 50%) in emails and calls from consumers requesting assistance with the online license verification tool.

Updates to Enforcement

In July 2024, PFB implemented a process to utilize the Franchise Tax Board Interagency Intercept Collection Program to collect outstanding fines and cost recovery, which resulted in increased compliance from licensees to meet their obligations without the added cost of an administrative proceeding.

PFB hired a second enforcement analyst in July 2024 to assist with complaint investigations. The hiring of additional staff allowed PFB to enhance its enforcement process and reduce its timeframe for processing complaints.

PFB continues to build relationships with probate courts throughout the state through notification of PFB actions or licensing issues. PFB also continues to collaborate and build relationships with local, state, and federal law enforcement agencies and other state regulatory entities on investigations involving professional fiduciaries. PFB enforcement staff served as consultants on matters related to licensing and professional fiduciaries with local, state, and federal law enforcement agencies.

Updates to Licensing

Strategic Plan Goal 2.2 for PFB was to educate licensees on licensure and renewal requirements to increase compliance. PFB implemented a process to notify licensees about their license status and licensing and renewal requirements by sending notices to licensees to gain compliance. PFB also updated its initial annual statement and annual statement forms to provide clarity to licensees on the information required to be reported, such as reporting a physical location for a home and business address. The updates also included information that will allow licensees to consistently and correctly report case information to PFB to reduce non-compliance issues. Additionally, PFB reformatted the annual statements by placing all publicly available information on the first page of the forms. This reformatting allows licensees to clearly identify information that is subject to public disclosure and provides a more efficient way for PFB to handle Public Records Act (PRA) requests for these documents.

NEW LEGISLATION

There was no enacted legislation solely related to the Bureau.

California Code of Regulations, title 16, section 1380–1397.71

Sunset Review:

Last review: 2025 | Next review: 2029

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 2946, a psychologist certified or licensed in another state or province who has applied to the Board for a license in California may perform activities and services of a psychological nature without a valid license for a period not to exceed 180 calendar days from the time of submitting his or her application or from the commencement of residency in California, whichever occurs first. Business and Professions Code section 2912 states that nothing in this chapter shall be construed to restrict or prevent a person who is licensed as a psychologist at the doctoral level in another state or territory of the United States or in Canada from offering psychological services in this state for a period not to exceed 30 days in a calendar year.

ACCOMPLISHMENTS

Sunset Review

The Board prepared its Sunset Review Report and delivered it to the Legislature in early January 2025 in advance of its sunset review hearing that was held on March 24, 2025. Board Chair Lea Tate, PsyD, Executive Officer Jonathan Burke, and Enforcement Program Manager Sandra Monterrubio appeared before a joint meeting of the Assembly and Senate Business and Professions Committees. The committees drafted reauthorization legislation for the Board, Senate Bill 775 (Ashby, Chapter 787, Statutes of 2025). The bill extends the authority for the Board to continue until January 1, 2030, as well as incorporating the following Board recommendations:

BOARD OF PSYCHOLOGY

- Clarifies that out-of-state psychologists may practice in California for up to 30 days per year, non-consecutively with specified terms and conditions.
- Makes technical updates to the Board’s enforcement provisions by clarifying definitions, updating procedures for license suspensions and reinstatements, and aligns enforcement protocols with current standards.
- Reinstates the \$25 supervisor change fee for psychological testing technicians enabling the Board to recover administrative costs related to supervisor changes.
- Expands the qualification standards for psychological testing technicians by including degrees in neuroscience, cognitive science, and behavioral science to the list of qualifying academic fields.
- Updates the various course and Continuing Professional Development (CPD) requirements for Research Psychoanalysts.

Communications & Outreach

The Board participated in numerous outreach events, including attending the Los Angeles County Psychological Association 80th Anniversary Celebration Convention in Woodland Hills in May 2025 and a career fair at Natomas High School in Sacramento in March 2025. These events allow Board staff to engage with licensees and the general public on matters relating to consumer protection and the profession.

In May 2025, the Board’s Executive Officer was interviewed by KQED on the dangers to consumers of unlicensed practice and the potential consequences for someone who offers therapy or charges for treatments without a license.

Diversity, Equity, Inclusion, and Accessibility (DEIA)

The Board is committed to implementing diversity, equity, inclusion, and accessibility (DEIA) goals and objectives through all that it does. In January 2025, all managers and staff participated in DCA’s “What is DEI?” training.

Board Leadership

The Board appointed Jonathan Burke as the new Executive Officer in March 2025. Executive Officer Burke was serving as the Interim Executive Officer since September 2024 and was previously employed as the Assistant Executive Officer. In June 2025, Sandra Monterrubio was hired as the Board’s new Assistant Executive Officer.

NEW LEGISLATION

SB 775 (Ashby, Chapter 787, Statutes of 2025) is the sunset bill for the Board of Behavioral Sciences and the Board of Psychology and extends the sunset date for each board to January 1, 2030. This bill makes various changes

related to the licensing of psychological testing technicians and the licensing and conduct of research psychoanalysts. Additionally, this bill clarifies requirements for international degrees for psychological associates and revises and recasts the Board of Psychology’s temporary practice provisions.

United States Code, title 12, section 3331–3356

Sunset Review:

Last review: 2025 | Next review: 2029

BUREAU HIGHLIGHTS

RECIPROCITY

California Business and Professions Code section 11350 states the director shall adopt regulations governing the process and procedure of applying for reciprocity, which shall meet, at a minimum, the requirements of the Appraisal Subcommittee. The California Code of Regulations section 3542 (a) (2) states all applicants must complete, prior to issuance of an initial or reciprocal license, a four-hour course on federal and California appraisal related statutory and regulatory law.

ACCOMPLISHMENTS

Sunset Review

In January 2025, the Bureau submitted its sunset report to the Legislature, addressing key trends and challenges in the California’s real estate appraisal industry. These included efforts to improve diversity among appraisers, public trust, service accessibility, and efforts to expand career pathways for aspiring professionals. The DCA Director and the Bureau Chief also participated in a joint sunset review hearing held by the Senate Business, Professions, and Economic Development Committee and the Assembly Business and Professions Committee on March 4, 2025.

Updates to Licensing

To expand career entry points and attract a more diverse pipeline of appraisers, the Bureau started accepting applications for the Real Estate Appraisal Practicum program. The first program, offered by West Los Angeles

Community College, was approved by BRE in June 2025. Additional proposals are under review by the Bureau. Alongside the Practical Applications of Real Estate Appraisal (PAREA) and the traditional supervisory model, the practicum may help to reverse the multiyear decline in California’s licensed appraiser population.

The Bureau significantly reduced its processing times for licensing applications. Initial Trainee applications are now processed in 10 to 14 days, while all other applications are reviewed and responded to in 10 to 15 days; both down from 60 to 80 days previously. Once an applicant passes the licensing examination, a license can now be issued within five days.

To align with updated Appraiser Qualifications Board (AQB) criteria effective January 1, 2026, BRE initiated several regulatory changes. These include new requirements for qualifying and continuing education and national examination.

Updates to Enforcement

In a significant milestone, BRE secured its first federal grant from the Appraisal Subcommittee (ASC). The \$76,600 award will help address enforcement backlogs, improve investigative workflows, and upgrade internal business systems. The grant is subject to annual renewals up to \$120,000 over the next two years, contingent on ASC’s approval of project proposals.

The Enforcement Unit prioritized the resolution of older cases, which led to a temporary increase in average case closure time. However, process improvements—including a new investigative report template—led to a 12% reduction in the number of cases pending.

The Bureau appointed a new Deputy Chief of Enforcement in August 2024.

Disaster Response

In response to the Los Angeles wildfires, the Bureau issued timely guidance for consumers and appraisers, implemented the Governor’s Executive Order to defer renewal fees, and collaborated with DCA and the Department of Real Estate (DRE) on a coordinated emergency response.

Communications and Outreach

BRE continued to build collaborative partnerships with stakeholders across the appraisal and real estate professions.

In March 2025, the Bureau convened a focus group of subject matter experts to discuss implementation strategies for the new Real Estate Appraisal Practicum program. Topics included regulatory compliance, application review protocols, and audit procedures.

The Bureau Chief represented BRE at the following events:

- Southern California Chapter Women’s Initiative Committee (April 2025).
- Association of Appraiser Regulatory Officials (AARO) Spring Conference (April 2025), where the Chief was elevated from alternate to voting board member on the Board of Directors.
- Young Realist Conference in Oakland (May 2025).

Additionally, the Deputy Chief delivered a presentation on April 24, 2025, at the California Community Colleges Real Estate Education Center Conference. The audience received updates on recent regulatory changes, revised education requirements, and BRE’s initiative related to the Real Estate Appraisal Practicum program, which can support them in developing educational materials for students.

Diversity, Equity, Inclusion, and Accessibility

The Bureau Chief actively contributed to DCA’s Diversity, Equity, Inclusion, and Accessibility (DEIA) Executive Steering Committee and authored a featured article for Black History Month. In alignment with DEIA goals, BRE management also participated in the professional development course “Beyond the Obvious: Cultivating Human Skills and Critical Thinking.”

NEW LEGISLATION

SB 774 (Ashby, Chapter 786, Statutes of 2025) is the sunset bill for the Bureau and the Department of Real Estate, which extends their sunset dates until January 1, 2030. This bill expands the provisions of the Bureau’s Recovery Account, while requiring additional notifications and the submittal of an annual legislative report regarding the account. This bill also requires the Bureau to conduct a study on the feasibility of mandatory licensure for all real estate appraisal transactions conducted in California.

California Code of Regulations, title 16, section 1402–1495.4

Sunset Review:

Last review: 2022 | Next review: 2026

BOARD HIGHLIGHTS

RECIPROCITY

The Board of Registered Nursing will grant a license to an individual who is licensed in the same profession in another state with no disciplinary action as verified through Nursys (the licensure and disciplinary database with data provided directly from state boards of nursing) and Department of Justice and FBI background checks. The Board will require proof of licensure from that state, transcripts to verify educational preparation, and verification of national certification as needed. No additional steps or licensure requirements such as exams are required.

ACCOMPLISHMENTS

Updates to Licensing and Education

The Board approved five new pre-licensure nursing programs, 17 enrollment increases, and one new campus. Together, these approvals resulted in the creation of 1,153 new student placements slots within California.

In September 2023, the contract between DCA and Horne, LLP (Horne) was approved with a contract term of July 1, 2023, to December 31, 2024, with specific process improvement goals for the Board. During the contract, Horne approved over 10,000 nurse licenses and cleared a backlog of over 7,700 applications.

Additionally, in September 2024, the Board and Horne implemented a concierge service to assist applicants in completing the application process. In May 2025, DCA released the post-contract report on licensing activities and recommendations completed through the contract with Horne.

Updates to Enforcement

The Board concluded the Deputy Attorney General Training Presentations for Board enforcement and investigations staff as well as DCA's Division of Investigation staff. Additionally, the Board conducted several trainings for internal and external stakeholders on continuous quality improvement efforts, including nurse support group trainings.

In January 2025, DCA entered into a contract with Premier Health Group, LLC, for the alternative to discipline programs with eight healing arts boards. The Board has the Intervention Program, an alternative to discipline program, which provides voluntary and confidential recovery and monitoring for RNs whose practice may be impaired by substance use disorder or mental illness. The Board continues to partner with and train Premier Health Group, LLC, for its Intervention Program.

The Board continues to lead the efforts of the Med Spa/IV Hydration Task Force. The purpose of this task force is to bring together the multidisciplinary regulatory boards under DCA to address instances of negligence in the compounding and administration of medication through intravenous injection.

Technological Advancement

In May 2025, the Board launched its new clinical facility authorization (CFA) portal and associated trainings. This platform allows BRN to compile and aggregate clinical facility and nursing program-specific information submitted by academic institutions for clinical approval in alignment with regulations.

The Board actively supported full staff participation in the Responsible AI for Public Professionals training offered through CalLeads. This initiative reinforces the Board's commitment to continuous quality improvements and technological advancements, including but not limited to the ethical and responsible use of artificial intelligence. As AI continues to shape the future of public service, the Board remains proactive in ensuring its workforce is prepared to use these tools responsibly and effectively.

Communications and Outreach

In January 2025, the Board promoted social media materials regarding the Los Angeles County wildfires and participated in waiving renewal fees for those in the impacted areas. The Board also posted information about wildfire recovery resources on social media. In March 2025, the Board released its winter edition of "The BRN Report." This publication aims to inspire, engage, and educate the Board's internal and external stakeholders.

The Board analyzed the last three years of its consumer services satisfaction survey, which showed an overall increase in consumer satisfaction with BRN.

Regulatory Changes

BRN had three regulatory packages approved by the Office of Administrative Law (OAL).

- California Code of Regulations (CCR) 1484, approved on June 27, 2025, replaces a previously incorporated document produced by the National Organization of Nurse Practitioner Faculties, "Nurse Practitioner Core Competencies Content" (2017), with a newer version, "Nurse Practitioner Role Core Competencies" (2022). This action also amends licensing requirements for both clinical preceptors and students in the nurse practitioner program for clinical preceptorships occurring outside of California.
- CCR 1417, approved on May 14, 2025, repeals the "Biennial Public Health Nurse Renewal Fee" in that section in response to Assembly Bill 2471 (2024) and Senate Bill 1526 (2024), which amended Business and Professions Code section 2816 by deleting provisions relating to renewal of a public health nurse certificate and adding a provision that states that a public health nurse certificate is not subject to renewal.
- CCR 1484, approved on August 14, 2024, replaces the phrase "and/or" with "or both"; eliminates gendered pronouns and replaces them with gender neutral terms; and adds the word "five hundred" so that an existing number in the regulatory text is in both numeric and alphabetic form.

Diversity, Equity, Inclusion, and Accessibility

Throughout the fiscal year, BRN continued to approve continuing education (CE) providers with curriculum that includes the understanding of implicit bias, unless the course is dedicated solely to research or other issues that do not include a direct patient care component.

NEW LEGISLATION

AB 583 (Pellerin, Chapter 271, Statutes of 2025)

authorizes a licensed nurse practitioner who was last in attendance of a patient to complete and attest to the health data section and time of death on a death certificate. This bill adds nurse practitioners to the group of specified individuals that are required to notify a coroner when they have knowledge of a death that has occurred or have charge of a body in which death occurred, under specified circumstances. This bill also requires a nurse practitioner in attendance on a fetal delivery to provide specified information and take certain actions relating to the fetal death certificate, and authorizes them to amend a record of death, fetal death, or live birth, as specified. Additionally, this bill makes various conforming changes. These provisions become operative on July 1, 2026.

BOARD OF REGISTERED NURSING

AB 876 (Flora, Chapter 169, Statutes of 2025) states that a certified registered nurse anesthetist (nurse anesthetist) is authorized to perform anesthesia services and defines anesthesia services for the purposes of the Nurse Anesthesia Act. This bill provides that an order from a physician, dentist, or podiatrist is authorization for a nurse anesthetist to provide anesthesia services, as specified. Additionally, this bill states that the selection and administration of medication by a nurse anesthetist, pursuant to an order by a physician, dentist, or podiatrist, does not constitute a prescription. Finally, this bill states that these provisions are declarative of existing law and advisory opinion and should not be interpreted as altering the nurse anesthetist scope of practice.

California Code of Regulations, title 16, section 1399.300–1399.395

Sunset Review:

Last review: 2022 | Next review: 2026

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 3735, the Board recognizes and accepts the National Board for Respiratory Care’s registered respiratory therapist credential in lieu of passage of the state licensing examinations. However, education requirements must also be met and background checks performed prior to license issuance. Further, verification of licensure, including discipline history, is required from each state where the applicant has been licensed.

ACCOMPLISHMENTS

Consumer Protection

In June 2025, the Office of Administrative Law (OAL) approved the Board’s Basic Respiratory Care Tasks and Services rulemaking package. This action explicitly defines basic respiratory care tasks and specifies the activities licensed vocational nurses are allowed to perform in relation to respiratory care. These regulatory changes became effective on October 1, 2025.

Updates to Licensing

In June 2025, the Board adopted a recommendation to pursue a legislative amendment to raise the minimum education requirement for licensure from an associate degree to a bachelor’s degree. This change aims to align respiratory care education with evolving practice standards and, most importantly, to enhance consumer protection by ensuring that licensed practitioners are equipped with the advanced knowledge and clinical competencies necessary to provide safe, high-quality care.

The Board continued to promote the use of online systems for license applications and renewals. To encourage electronic filing of initial applications, the paper application on the Board’s website was replaced with a direct link to the BreZE online portal. Additionally, in collaboration with the DCA’s Office of Information Services, in March 2025 the Board transitioned from a multi-page paper renewal application to a streamlined postcard renewal notice, reducing both postage costs and paper waste.

Board Leadership

In December 2024, the Board underwent a leadership transition following the retirement of Stephanie Nunez, who served as Executive Officer for over two decades. Upon her retirement, Christine Molina, who had served as the Board’s Assistant Executive Officer since 1998, was appointed Executive Officer.

Communications and Outreach

In alignment with Strategic Plan Administration Goal 1.5 to “Investigate methods for informing the public about the profession and Board to increase awareness and foster increased public participation,” in January 2025, the Board significantly expanded its social media presence. In collaboration with DCA’s Communications Division, the Board created and shared several posts across Instagram, X, LinkedIn, and Facebook focused on educating applicants, licensees, and consumers on key topics related to respiratory care and licensure. Since the expansion, the Board has gained over 600 new followers across platforms, has generated more than 34,000 views and 1,100 content interactions, and now publishes approximately six posts per month across all platforms. Engagement has grown steadily, with posts averaging hundreds of impressions and reactions each month.

The May 2025 issue of Breathing Matters commemorated the 40th anniversary of licensure for respiratory care practitioners (RCPs) in California, honoring those who have maintained active licenses since 1985. These pioneering professionals helped elevate respiratory care through their commitment to clinical excellence, ethical practice, and lifelong learning. Their contributions have shaped the profession over four decades, supporting advances in technology, education, and patient care.

In May and June 2025, staff shadowed respiratory care practitioners at UC Davis Medical Center to gain firsthand insight into the daily responsibilities, challenges, and contributions of respiratory therapists. This experience offered valuable perspective to help inform our policies, licensing standards, and broader understanding of the profession as the Board advances efforts to raise

minimum education requirements and collaborates on the development of an Advanced Practice Respiratory Therapist role in California.

Enforcement/Strategic Plan

In alignment with Strategic Plan Enforcement Goal 3.1 to “Review and update the web retention policy, as appropriate, to ensure it is meeting current expectations of stakeholders,” the Board updated its Web Retention Policy in March 2025. The revision aims to balance the public’s right to access information about healthcare practitioners with the privacy interests of licensees who have fulfilled the terms of disciplinary actions against their licenses.

NEW LEGISLATION

SB 389 (Ochoa Bogh, Chapter 582, Statutes of 2025) clarifies that licensed vocational nurses may perform basic respiratory tasks, such as suctioning, in a school setting under the supervision of a credentialed school nurse.

Last review: 2024 | Next review: 2028

BUREAU HIGHLIGHTS

RECIPROCITY

The Bureau has limited reciprocity with just one profession, private investigator. Florida, Georgia, Louisiana, North Carolina, and Oregon have limited reciprocity with California at this time.

ACCOMPLISHMENTS

Updates to Licensing

The Bureau has established a processing goal of 60 days for all registration applications and 45 days for military applications. This includes security guard registrations, which represent one of the highest-volume license types. Throughout the fiscal year, the Bureau consistently met and often surpassed these processing timelines across all registration application types. Processing times are updated weekly and made available on the Bureau’s website to ensure transparency.

Additionally, the Bureau maintained a response time of 24 to 48 hours for all applicant email inquiries received through its general email account, except in cases involving the most complex issues.

Updates to Enforcement

The Bureau conducted multiple targeted enforcement operations aimed at promoting compliance and protecting public safety. In October 2024, BSIS participated in enforcement activities during the Aftershock music festival, and in April 2025, the Bureau conducted a coordinated field operation at the Coachella music festival for the first time. Together, these efforts resulted in compliance checks of over 185 security guards and five private

patrol operators (PPOs). Compliance checks safeguard public safety by identifying unlicensed activity, verifying compliance in the field, and ensuring that only qualified and licensed individuals operate within the regulated security industry. Field operations such as compliance checks deter unlawful conduct, uphold the Bureau's regulatory authority, and contribute to a more consistent and accountable enforcement landscape statewide.

The Bureau also engaged in outreach efforts in December 2024 and February 2025 with the California Department of Insurance to promote awareness of workers' compensation insurance requirements among licensees. In addition, BSIS strengthened its local enforcement partnerships with the Riverside and San Diego Police Departments, conducting joint sweeps targeting unlicensed activity in August 2024, October 2024, March 2025, and May 2025.

These field operations reflect the Bureau's continued commitment to proactive enforcement and cross-agency collaboration, reinforcing its regulatory authority and public protection mission.

Consumer Protection

The Bureau's Policy Unit updated and published 56 documents to the Bureau's website, supporting the Bureau's consumer protection goal of enhancing transparency, promoting regulatory compliance, and ensuring the public has access to accurate, up-to-date information about licensee standards and enforcement practices.

Diversity, Equity, and Inclusion (DEI)

The Bureau updated its 2022–2026 Strategic Plan to include diversity, equity, and inclusion goals to ensure all individuals have access to the tools, opportunities, and support they need to apply for licensure and engage with the Bureau consistently and equitably. The updated report, posted July 2025, is available on the Bureau's website.

Communications and Outreach

Bureau Chief Lynne Jensen attended the California Association of Licensed Security Agencies, Guards and Associates (CALSAGA) annual conference in October 2024 at Palm Springs and held a question-and-answer session for over 200 attendees. The conference is a yearly opportunity for Bureau leadership to directly engage with its largest licensee group in an informal, collegial setting.

On March 9, 2025, the Bureau's Enforcement Chief Majdi "MJ" Abdelsalam attended the Sacramento Area Alarm Association's membership meeting. The Enforcement Chief

was in attendance to represent the Bureau and provide regulatory and enforcement updates specific to the alarm industry.

On March 10, 2025, Assistant Chief Samuel Stodolski and Licensing Chief Andrea Dailly attended the California Association of Licensed Investigators (CALI) Legislative Day where they discussed and answered questions about implementation of the new Private Investigator Qualified Manager license.

Collaborations with Other Agencies

In January 2025, the Bureau rejoined the Joint Enforcement Strike Force (JESF), a multi-agency enforcement initiative coordinated through the Department of Industrial Relations alongside other DCA boards and bureaus, Employment Development Department (EDD), Franchise Tax Board (FTB), California Department of Tax and Fee Administration (CDTFA), Department of Insurance (DOI), Department of Cannabis Control (DCC), and the State Compensation Insurance Fund (SCIF).

Participation in JESF has enabled the Bureau to engage in collaborative enforcement planning, expand interagency information sharing, and support coordinated efforts to address unlicensed activity, particularly within the security guard, locksmith, and private patrol operator sectors. These meetings serve as a platform for strategic alignment and cross-jurisdictional enforcement collaboration to combat underground and noncompliant business activity.

As part of this ongoing engagement, the Bureau is working with JESF partners to identify future opportunities for joint field inspections, improve referral protocols, and leverage shared enforcement intelligence in support of the Bureau's consumer protection mandate.

NEW LEGISLATION

SB 652 (Richardson, Chapter 94, Statutes of 2025) specifies that the Power to Arrest and Appropriate Use of Force curriculum for security guards licensed by the Bureau must be instructed in its entirety and certified by one instructor. This bill also requires applicants to successfully complete the Power to Arrest and Appropriate Use of Force training within six months preceding the date the application for registration is submitted to the Bureau. This bill further specifies that a licensee may administer, test, and certify the Power to Arrest and Appropriate Use of Force trainings, as long as they provide the trainings to their own direct employees or applicants for employment.

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Technological Advancements

After two full years of implementation on the Board's new Apply Simply! online licensing system, the Board has seen an average reduction of 71 percent in processing times for licensing applications compared to the previous process. The Board now consistently averages a processing time of 1–2 weeks.

Strategic Plan

The Board concluded its 2021–2024 Strategic Plan, completing over 67 percent of its identified Strategic Goals. Most significant amongst these accomplishments was completion of the Board's Licensing Business Modernization Project as well as increasing board resources through the Budget process to meet demand for licensing services, reduce processing times, and conduct ongoing continuing education audits that verify licensees are maintaining continuing competency. Following these improvements, over fiscal years FY20–21–FY24–25, the Board licensed an average of 326 additional speech-language pathologists and speech-language pathology assistants per year to serve California's K-12 school population with speech and special education services. The Board also implemented technology enhancements to achieve a 34% improvement in responsiveness to telephone inquiries from applicants, licensees, and consumers. Further, the Board created consumer and

licensee educational resources related to enforcement and regulatory processes. All combined, these accomplishments have markedly improved the Board's performance in licensing and its overall responsiveness to all stakeholders.

On September 5, 2024, the Board approved its new 2025–2028 Strategic Plan, which includes goals and objectives to be accomplished by the end of 2028. The plan was developed with input from internal and external stakeholders to formulate Strategic Goals that will aid the Board in effectively carrying out its mission of consumer protection while ensuring efficient operations in licensing, enforcement, outreach and communication, laws and regulations, and administration. Highlights of the 2025–2028 Strategic Plan include the following Strategic Goals:

- Improve the Board's website to increase accessibility and user friendliness.
- Communicate the risks and limitations of over-the-counter hearing aids to increase consumer awareness.
- Improve communication with complainants and respondents to clarify the enforcement process and promote consumer satisfaction.
- Collaborate with DCA's Office of Information Services (OIS) to research the feasibility of creating a Board specific online complaint system that provides status updates to complainants and respondents.
- Create educational materials to clearly explain the application and licensing processes.
- Through education and outreach, keep licensees informed about changes to continuing education regulations.
- Update regulations about supervision to increase clarity and address ethical issues, including conflicts of interest.
- Review the organizational structure to ensure appropriate oversight of the Board's operations and supervision of staff.

Change in Board Leadership

The Board appointed Cherise Burns as its new executive officer, effective February 24, 2025. Ms. Burns has served the State of California in various roles for more than 11 years and most recently held the position of interim executive officer for the Board effective November 6, 2024, and served as the Board's assistant executive officer since January 27, 2020.

Outreach and Communications

The Board participated in multiple outreach events, providing opportunities to inform stakeholders of the statutes and regulations impacting the profession and the Board's mission of consumer protection.

On March 15, 2025, the Board presented to the California Speech Language Hearing Association at their Convergence 2025 conference in Pasadena. Specifically, the Board focused on educating licensees on the new continuing competency requirements and continuing education audit process, as well as the most effective ways to participate in and provide public comment during the regulatory process.

On April 7, 2025, the Board presented to the California Council of Academic Programs in Communication Sciences and Disorders (CAPCSD) at their virtual meeting to update program leaders on the current license processing times students will experience after graduation and educate Council licensees on the new continuing competency requirements and continuing education audit process.

Regulations

The Board produced three regulatory files through the formal rulemaking process with the Office of Administrative Law. These files include language that strengthens consumer protections in relation to hearing aid dispensing advertising, ensuring that dispensers advertise in such a way that is not false, fraudulent, misleading, or deceptive. Also included in these files were revisions to the continuing competency requirements for Speech-Language Pathologists, Audiologists, and Hearing Aid Dispensers that protect consumers by ensuring licensees continue to improve their professional learning to maintain ethical and competent practice throughout their career.

NEW LEGISLATION

There was no enacted legislation solely related to this Board.

California Code of Regulations, title 16, section 1900–1999.5

Sunset Review:

Last review: 2023 | Next review: 2027

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Regulatory Changes

The Board implemented two regulatory updates aimed at improving consumer safety and transparency related to pesticide use and structural fumigation. The first update clarified reporting standards for all structural pesticide applications, including new requirements for documenting pesticide use and applicator identification. These updates improve the traceability and accountability of pesticide applications, ultimately increasing protections for both consumers and the environment.

The second regulatory update modernized notice requirements before and after pesticide applications, clarified delivery methods for electronic notices, and updated consumer disclosure forms. These changes ensure consumers are better informed before and after pesticide treatments and reinforce critical safety protocols in the event of a serious injury or fatality. Together, these regulatory updates strengthen the Board's core mission to protect public health and safety.

Communications and Outreach

To strengthen public engagement, the Board increased its participation in outreach events, attending 26 events compared to 10 in the prior fiscal year, to raise awareness and build meaningful relationships with consumers,

STRUCTURAL PEST CONTROL BOARD

licensees, and stakeholders. Staff delivered presentations at the University of California Fumigation School, an event organized by UC Riverside, in Pomona in October 2024, the UC Riverside Urban Pest Management Conference in Riverside in March 2025, and at multiple events statewide hosted by the California Pest Management Association. Topics included sulfurlyl fluoride labeling, the Occupant Fumigation Notice, Fumigation Log requirements, wood-destroying organism inspection responsibilities, common violations, regulatory updates, and best practices to help licensees remain informed and compliant. Board staff also participated in a Homeowners Association Town Hall in San Diego in May 2025 to educate the public on fumigation versus local treatment, including safety and efficacy considerations.

Updates to Licensing

In November 2024, the Board launched the online Applicator, Field Representative, and Operator License Application through Connect, the Board’s new licensing system. This milestone supported the Board’s paperless initiative and modernized its licensing processes.

Moving this application process online has improved accessibility and efficiency for applicants while enhancing internal review and processing capabilities. Since implementation, the Board has observed a 62% reduction in deficient applications, highlighting the positive impact of the transition and reinforcing the Board’s commitment to innovation, customer service, and operational efficiency.

Diversity, Equity, Inclusion, and Accessibility

The Board continues to advance diversity, equity, inclusion, and accessibility (DEIA) through meaningful actions that improve communication and access. Staff training on clear and respectful communication practices and the incorporation of plain language across public-facing materials reflect this commitment.

In November 2024, the Board launched its online license application system through Connect. While this effort supported the Board’s broader modernization goals, it also expanded access by removing common barriers to entry, such as the need to submit paper forms by mail or in person. This platform helps ensure individuals with limited mobility, irregular work schedules, or language barriers can more easily navigate the licensing process. Since its launch, over 84% of applicants have used the system. These efforts underscore the Board’s ongoing dedication to creating an inclusive environment where all applicants can engage with the licensing process equitably and efficiently.

Studies Conducted

The Board took a significant step forward by re-establishing a Research Advisory Panel (RAP) to continue its research initiatives. This new panel, composed of experts and key stakeholders, was tasked with guiding the Board’s research efforts by establishing proposal criteria, identifying research topics, and recommending updates to the solicitation process.

In December 2024, the RAP finalized proposal requirements, including minimum qualifications for applicants and a structured scoring methodology. The panel also recommended prioritizing research on integrated pest management (IPM) for structural pests. These recommendations were approved by the Board at the March 2025 Board Meeting.

These efforts reflect the Board’s ongoing commitment to supporting innovative, science-based approaches to structural pest control. By guiding and funding targeted research, we help ensure the industry has access to effective, up-to-date pest management strategies rooted in scientific advancement.

NEW LEGISLATION

There was no enacted legislation solely related to this Board.

CALIFORNIA VETERINARY MEDICAL BOARD

BOARD HIGHLIGHTS

RECIPROCITY

The Board does not have reciprocity.

ACCOMPLISHMENTS

Sunset Review

The Board submitted its Sunset Review Report in January 2025. The report highlighted the Board’s key accomplishments since the last sunset review, including licensing and enforcement process improvements, national advocacy to improve examination access and score reporting, and increased outreach through educational webinars for Board licensees and stakeholders.

During its sunset hearing in March 2025, the Board President, Vice President, and Executive Officer provided an overview of its report and answered questions related to how the Legislature and the Board can work together to address identified issues and improve consumer protection. The Board’s sunset bill (AB 1502, Berman), impacting 41 statutes – eight of which are being repealed, streamlines processes and significantly enhances consumer protection.

Enhanced Customer Service

Throughout Fiscal Year 2024-25, the Board collaborated with DCA’s Strategic Organizational Leadership and Individual Development (SOLID) Training unit to provide regular customer service training to all Board staff. The Board implemented the training plan after reviewing customer satisfaction surveys and identifying opportunities to improve the experience public members had when corresponding or speaking with Board staff.

Licenses and regulates veterinarians, registered veterinary technicians, and veterinary premises.

www.vmb.ca.gov

Staff: 41.7 civil servant positions, 1 exempt

Licenses, Registrations, Certificates, and Permits: 36,279

Board Membership: 3 public representatives, 5 licensees

Laws and Regulations:

Business and Professions Code section 4800–4917
California Code of Regulations, title 16, section 2000–2095

Sunset Review:

Last review: 2025 | Next review: 2029

Training topics covered throughout the year included: general customer service skills and tips, de-escalation techniques, effective emails, examining instant messages, etiquette in correspondence, the use of plain language, unconscious bias, and the importance of psychological safety. Due to the success of the trainings, the Board plans to continue its collaboration with SOLID to provide regular trainings and use feedback from public contacts to identify opportunities and topics to address in those trainings.

Mobile Inspection Application

In November 2024, the Board launched the Mobile Inspection Platform (MIP). The MIP was developed in partnership with the California Department of Technology's Technology Modernization Fund, DCA, and the Board of Barbering and Cosmetology. The MIP is an application that contains the Board's inspection checklist and allows Board inspectors to provide inspection results to the Board and responsible staff at the veterinary premises in real time. Receiving and providing real-time feedback following an inspection allows the Board to be more proactive in ensuring that registered veterinary premises comply with minimum standards requirements and that California's consumers and animals are protected. The MIP eliminates a paper process and allows for the inspection report to be emailed to licensees immediately with photographs of all violations. The new MIP also interfaces with the BreZE database and eliminates the manual entry of inspections that have no violations.

Communications and Outreach

The Board's Multidisciplinary Advisory Committee's Unlicensed Practice Subcommittee (Subcommittee) held several stakeholder meetings to better understand the various forms of unlicensed practice occurring in the profession. Stakeholders included representatives from small-animal and large-animal (including equine and food animal) shelters, polo clubs, and horse shows. After the stakeholder meetings, the Board worked with the Legislature to increase its citation authority beyond the \$5,000 cap in California Business and Professions Code (BPC) section 125.9. Effective January 1, 2026, the Board will have the authority to issue an unlicensed practice citation of up to \$10,000 per violation for practicing or offering to practice veterinary medicine without a license.

Over the last year, the Board partnered with the Board of Pharmacy, the Drug Enforcement Administration (DEA), the California Department of Public Health (CDPH), and the Department of Justice to provide educational webinars to the Board's licensees and stakeholders. Topics included Board and DEA inspection processes, CDPH's Radiological Health Branch inspection process, misbranded drugs, and Controlled Substance Utilization Review and Evaluation System (CURES) reporting

requirements. The webinars were open to the public and provided continuing education to licensees in attendance. Due to the Board's consistent outreach efforts, the webinars have seen continuously increasing participation and interest, with roughly 500 attendees at recent webinars.

NEW LEGISLATION

AB 516 (Kalra, Chapter 371, Statutes of 2025) clarifies that registered veterinary technicians and veterinary assistants are allowed to perform animal health services not otherwise prohibited by law under the supervision of a veterinarian. Additionally, this bill clarifies that these services can be provided in both public and private shelters, humane societies, and societies for the prevention of cruelty to animals. This bill also permits registered veterinary technicians to perform certain dental procedures, including tooth extractions, under the supervision of a veterinarian.

AB 867 (Lee, Chapter 479, Statutes of 2025) prohibits a person from performing a cat declawing, as specified, unless the person is licensed as a veterinarian by the Board and the veterinarian is performing the declawing for a therapeutic purpose. This bill also provides the Board with the authority to deny, revoke, or suspend a license or registration or assess a fine if a veterinarian licensee performs a cat declawing surgery that is prohibited under this bill.

AB 1502 (Berman, Chapter 195, Statutes of 2025) is the sunset bill for the Board and extends the Board's operations and sunset date to January 1, 2030. Among other provisions, this bill updates the Board's composition by increasing the membership by one registered veterinary technician, increases citation amounts, updates the requirements for veterinary assistant controlled substance permitholders to compound drugs, revises and recasts registered veterinary technician license requirements, raises the cap for various application and renewal fees, revises and recasts continuing education requirements, establishes timelines for veterinarians to provide clients with animal patient records, and updates administrative actions the Board can take against licensees in violation of the law. This bill also makes non-substantive and technical changes to the Veterinary Medicine Practice Act.

SB 602 (Cortese, Chapter 589, Statutes of 2025) allows registered veterinary technicians to establish the veterinarian-client-patient relationship for the purposes of performing certain authorized functions in a registered veterinary premises that is a public animal control agency or shelter, private animal shelter, humane society shelter, or shelter run by societies for the prevention of cruelty to animals.

2500–25573.3 and 2560–2595.3

Sunset Review:

Last review: 2024 | Next review: 2028

BOARD HIGHLIGHTS

RECIPROCITY

Pursuant to Business and Professions Code section 2872.1, the Board, upon receiving a written application and required fees, may issue a license to any applicant who possesses a valid unrevoked license as a vocational or practical nurse issued by any other state or foreign country, and who in the opinion of the Board meets all the other requirements. Pursuant to Business and Professions Code section 4515, the Board, upon receiving a written application and required fees, may issue a license to any applicant who possesses a valid unrevoked license as a psychiatric technician issued by any other state or foreign country, and who in the opinion of the Board meets all the other requirements.

ACCOMPLISHMENTS

Updates to Licensing

The Board transferred the in-house License Verification function to the Nursys.com database, the only national database for verification of nurse licensure, discipline, and practice privileges for RNs and LPN/VNs licensed in participating state boards of nursing. This went live on July 2, 2025.

Updates to Education

The Board worked with DCA's Office of Professional Examination Services (OPES) to review and write items for the California Psychiatric Technicians Licensing Examination (CAPTLE). Also, in partnership with OPES, the Board conducted the Occupational Analysis of the

BOARD OF VOCATIONAL NURSING AND PSYCHIATRIC TECHNICIANS

Psychiatric Technician Profession, a mandated report performed every five years. Approximately 13% of the licensees responded to the survey for the study. This report illustrated the training, employment sites, and career goals of the psychiatric technicians licensed by BVNPT.

The Board also approved eight new school programs in this fiscal year.

Updates to Enforcement

The Board updated its Disciplinary Guidelines and Uniform Standards Regarding Substance Abusing Licensees, which had not been updated since 2011. There were several important updates, including adding in Evidence in Aggravation of Penalty, Evidence in Mitigation of Penalty, and Rehabilitation Evidence. These updates articulate the specific evidence that must be reviewed when considering penalties. The new guidelines were posted on the Board’s website and went into effect on October 1, 2024.

Sunset Legislation

The Board’s Sunset Legislation, AB 3255 (Berman), was enacted on January 1, 2025. It officially reauthorized BVNPT through 2029, and authorized the Board to issue citations and fines to the schools and programs under its regulatory authority. See the full 2024 Sunset Review Report here: www.bvnpt.ca.gov/pdf/2024_sunset_report.pdf.

Strategic Plan

The Board worked with DCA’s SOLID Planning Solutions unit on the Board’s new strategic plan. At the August 2024 meeting, the Board set goals and priorities for its 2025–2030 Strategic Plan. Special attention was paid to incorporating the concepts of diversity, equity, inclusion, and accessibility (DEIA) into the plan to promote school program curriculum that encourages DEIA and cultural sensitivity in the treatment of patients. The 2025–2030 Strategic Plan was approved at the November 2024 meeting.

NEW LEGISLATION

SB 389 (Ochoa Bogh, Chapter 582, Statutes of 2025) clarifies that licensed vocational nurses may perform basic respiratory tasks, such as suctioning, in a school setting under the supervision of a credentialed school nurse.

ASSEMBLY BILL 2138

The following data is provided in compliance with Business and Professions Code sections 480(g)(2) and 480(g)(3), which require all boards, bureaus, and committees under DCA to annually report the number of applications with criminal records that result in denial, submission of evidence of mitigation and rehabilitation, or an appeal of the denial, as well as any voluntarily provided demographic or gender information. The Department has expanded the information to include the number of applicants with a criminal record who:

- (A) may or may not be subject to denial
- (B) required the board or bureau to inquire about criminal history related to license denial
- (C) received notice of denial without appeal*
- (D) were approved for examination or to continue the licensing process*
- (E) were subject to denial and were issued a license*
- (F) withdrew their application*
- (G) allowed the application to expire before final evaluation of the criminal history*
- (H) appealed the board or bureau's denial and were denied a license by a disciplinary review committee (DRC) or administrative law judge (ALJ)*
- (I) appealed the board or bureau's denial and were approved by a DRC or ALJ for examination or to continue the licensing process*
- (J) appealed the board or bureau's denial to a DRC or ALJ and were issued a license*
- (K) appealed the board or bureau's denial and withdrew the application before completion of appeal*
- (L) allowed the application to expire after appeal to a DRC or ALJ approved them to continue the license process*

*The relative number of applicants who provided evidence of mitigation or rehabilitation is also included.

LICENSING REQUIREMENTS

The following table indicates the minimum requirements for licensure by license type. The individual requirement categories are:

- **GED/High School Diploma** – successfully completed high school or passed the General Education Development (GED) exam prior to application.
- **Higher Education/Professional Schooling** – successful completion of a vocational or technical school or approved training program, Associate of Arts (AA) degree, or undergraduate degree including a Bachelor of Arts (BA), Bachelor of Science (BS), Bachelor of Education (B.Ed.), Bachelor of Technology (B.Tech), etc.
- **Post Graduate Training** – successful completion of a Master of Arts (MA), Master of Science (MS), Master of Business Administration (MBA), Professional Doctoral Degrees, or other advanced practice graduate level education and training beyond undergraduate.
- **Professional Experience** – knowledge, skills, and abilities gained through paid employment, structured training courses to gather experience, or through experience after a trainee license is issued by a board or bureau.
- **Examination** – must pass a board, state, or national examination prior to the issuance of a license.
- **Fingerprint Requirement** – must submit a full set of fingerprints for purposes of conducting a criminal history record check. This includes criminal history from the Department of Justice (DOJ) and the Federal Bureau of Investigation (FBI).

MILITARY LICENSURE

The following data is provided in compliance with Business and Professions Code section 115.8, which requires all boards, bureaus, committees, and commissions under DCA to annually report the following information:

- (A) The number of applications for a temporary license submitted by military spouses.
- (B) The number of applications for expedited licenses submitted by veterans and active-duty spouses.
- (C) The number of licenses issued and denied.
- (D) The number of temporary licenses suspended or revoked.
- (E) The number of applications for waived renewal fees received and granted.
- (F) The average length of time between application and issuance of license including examination time if applicable.

¹ An application is abandoned when the applicant is notified of a deficiency and that deficiency is not resolved in the given time period set by statute or regulation, which leads to abandonment and closure of the application.

² Complete applications are those without any deficiencies, such as missing documents necessary for licensure.

³ Waivers approved may not match renewal requests received as some requests are not approved in the same fiscal year, documentation of military orders may not have been received and the request is pending, or the licensee may have withdrawn the request. Renewal waivers are never denied if orders are provided with the renewal request.

¹ An application is abandoned when the applicant is notified of a deficiency and that deficiency is not resolved in the given time period set by statute or regulation, which leads to abandonment and closure of the application.

² Complete applications are those without any deficiencies, such as missing documents necessary for licensure.

³ Waivers approved may not match renewal requests received as some requests are not approved in the same fiscal year, documentation of military orders may not have been received and the request is pending, or the licensee may have withdrawn the request. Renewal waivers are never denied if orders are provided with the renewal request.

SECTION 139

The following data is provided in compliance with Business and Professions Code section 139. Section 139 requires that every licensure examination under DCA be based on a valid occupational analysis (OA). It also requires that every licensure examination be periodically evaluated for validity, reliability, fairness, and legal defensibility. To ensure that these requirements are met, section 139(c) requires all boards, bureaus, and committees under DCA to report the following information:

- (A) The legislative and regulatory authority for the prerequisites to take the examination, and how often these prerequisites are assessed.
- (B) The year of the most recent OA of the licensed profession, and the year of the OA on which the current examination is based.
- (C) The method for setting the passing score for the examination.
- (D) Whether examination items (questions) are periodically analyzed.
- (E) Direct costs in the previous fiscal year for OAs, examination development, examination administration, and licensure examination program evaluation.

¹ Prerequisites for admittance to the examination are mandated by Business and Professions Code (BPC) and/or California Code of Regulations (CCR) and assessed using a number of methods, including national standards and regulatory review. CCR codes are title 16 unless otherwise indicated.

² Methods used to establish passing scores vary across examination administrations and are based on minimum competence criteria necessary for licensure.

³ Included are costs for personnel required to perform these functions.

⁴ The date in the "OA Year Current Exam is Based" column may be earlier than the date in the "Year of Most Recent OA" column. The current examination may be based on the OA preceding the most recent OA. It takes a significant amount of time to update an examination after a new OA is completed.

⁵ The Modified Angoff method is a criterion-referenced method for setting the passing score of an examination. Licensed practitioners establish a minimally acceptable level of competence for safe practice that candidates must possess to pass the examination. By applying a criterion-referenced methodology, a passing score is set lower for an examination containing many difficult items (questions) and set higher for an examination containing a small number of difficult items. The Modified Angoff method is the most common method used for licensure examinations.

⁶ IRT stands for Item Response Theory, a statistical method for estimating the difficulty of examination items (questions) and of examinations. For licensure examination programs that meet certain parameters, IRT can be used to set the passing score for the examination after a Modified Angoff method has been used to set the criterion.

¹ Prerequisites for admittance to the examination are mandated by Business and Professions Code (BPC) and/or California Code of Regulations (CCR) and assessed using a number of methods, including national standards and regulatory review. CCR codes are title 16 unless otherwise indicated.

² Methods used to establish passing scores vary across examination administrations and are based on minimum competence criteria necessary for licensure.

³ Included are costs for personnel required to perform these functions.

⁴ The date in the "OA Year Current Exam is Based" column may be earlier than the date in the "Year of Most Recent OA" column. The current examination may be based on the OA preceding the most recent OA. It takes a significant amount of time to update an examination after a new OA is completed.

FUND CONDITIONS

The following information summarizes the operations of a fund for the prior fiscal year. The display includes the beginning fund balance and details all revenues, expenditures, and transfers impacting the fund, and reports the final fund reserve. Also included are the estimated Months-in-Reserve for each fund, based on the ending balance.
